About the Office for National Statistics

The Office for National Statistics (ONS) is the central body for analysing and disseminating many of the United Kingdom's official statistics, including the retail prices index, trade figures, the census of the population and health statistics. The Office also provides the Statistical Service (GSS) and Registrar-General in England and Wales, statutory registration of births, marriages and deaths.

Editorial policy statement

The Office for National Statistics works in partnership with government to provide Parliament, government and the wider community with the statistics needed to improve decision-making, stimulate research and innovation. It aims to provide an authoritative and impartial picture of the state of the nation and of government, allowing the impact of government policies to be assessed.

ACKNOWLEDGEMENTS

In the revision and compilation of this classification, the author acknowledges the major work undertaken by staff of the Office for National Statistics, Professor Peter Elias, Abigail McKnight, Rhys Iwan Jones, and the following:

The work was strongly supported through a grant from the Office for National Statistics, the Department of Health, the Employment Service, the Health and Safety Commission, Scotland, the Northern Ireland Statistics and Research Agency, and the Welsh Office.

The preparation of this publication was also made possible by the co-operation of many organisations and individuals who supplied documents, supplied information, and offered advice.

fication, the Government Statistical Service staff at the Institute for Employment Research: Iys Davies and Margaret Birch.

a Steering Group comprising staff from the Department for Education and Employment, the Civil Service Executive, the General Register Office for Scotland and the Research Agency.

made possible with the considerable help and support of individuals who commented on consultative documents and constructive suggestions.

PREFACE

In 1990 the first single classification of occupations was published. This classification, known as the Standard Occupational Classification, was subsequently adopted by most government departments and has been the basis for the production of occupationally classified information. Across a wide variety of statistical sources and for a wide range of purposes, the vital registration, job matching, analysis of labour market trends, a common single classification.

Occupational information serves a variety of purposes. It is used in the work undertaken by employment agencies, provided to employers and educational sectors and other labour market organisations. It yields guidance for the development of labour market policy and relate to the promotion of work-based training. The benefits gained from using a single classification of occupations will only continue to be realised if the classification keeps pace with technological progress quickens and as work changes. The occupational map changes. In many areas of work, new occupations are difficult to position in the existing classification are gradually becoming defunct.

Such problems were anticipated when SOC90 was published. The statistical body then responsible¹ for SOC90 was given a revised index to SOC90 and that the structure of the index prior to the next Census of Population in 2001 was published. The present volume completes the revision of the classification.

The conceptual basis of the classification remains the same. It is based on their skill level and skill content. Within the classification defined in terms of the nature and duration of the training required to become competent to perform the work. The revision process has focused upon particular changes in the organisation of work or in the type of work. These include jobs related to information and communication technology and leisure. Managerial occupations have also undergone some redefinition in SOC2000 given the extent of change. To be different from other European Union classifications the terminology of the classification has also been revised.

¹ Responsibility for the Standard Occupational Classification originally rested with the Office for National Statistics. Following the reorganisation of official statistics, responsibility for the classification was given to the (then) Office for National Statistics.

tions was introduced in the United Kingdom. The Occupational Classification (SOC90), was developed by the departments and agencies responsible for the collection and the processing of occupational data. It is used for many different functions, for example, to monitor labour market trends, SOC90 has become the

main tool for these purposes. It informs the job matching functions and provides career information for leavers from the education system and, via statistical analysis of trends, informs labour market policies – especially those which relate to training. While there are substantial benefits to be gained from the use of SOC90 for these purposes, these gains are being eroded as the classification is kept up-to-date. As the pace of change in the work becomes differently organised, so the relevance of SOC90 now appears out-of-date. Some parts of the classification, whilst other parts of the classification are out of date.

SOC90 was introduced. A decision was made by the government in 1990, that new job titles would be positioned in the structure of the classification would be reviewed in 2001. In 1995 a revised index to SOC90 was introduced to speed the review process by revising the structure of

the classification remains unchanged. Jobs are classified in terms of their skill level in the context of the classification, ‘skill’ is defined in terms of the qualifications, training and work experience required to perform the associated tasks in a particular job. The changes in the areas of the classification where changes in the work performed have been most apparent. These changes include information technologies, culture, media, sports and leisure. These areas have also been subject to extensive scrutiny and to changes in the way in which the United Kingdom was found to compare with other countries in this area of classification. The classification has been revised thoroughly.

The classification originally rested with the Central Statistical Office, although the Office of Population Censuses and Surveys. Following the transfer of the classification passed to the Office for National Statistics.

Variations in skill requirements will be found in different workplaces. Consequently, not all definitions of specific jobs in any particular establishment or occupation classification should not be regarded as setting standards for pay, hours worked or as a part of the legal framework of employment.

No single classification system can satisfy the needs of all who hoped that the straightforward and structured system would be and its improved compatibility with the international system continues to meet the classification needs of the world.

users and producers of occupational data.

INTRODUCTION

1. General background and introduction

The Standard Occupational Classification, first published in 1990, is the work of the Occupational Information Unit (OIU) of the Department of Social Security. The OIU conducts its maintenance functions on a day-to-day basis, including collecting and collating information on new occupations, and on changes of occupational information for the purpose of the classification. It has longer-term responsibilities to prepare and maintain the classification and the structure of the classification.

As part of this longer-term work programme, the OIU conducted a consultation on SOC90 in 1995. To prepare for revision of the classification, the OIU met with users of occupational information in 1995 to discuss any potential revision. From this consultation, a number of issues were identified. These were:

- users found it difficult to classify jobs, particularly where the titles of the classification were unclear, leading to confusion about titles within the structure of SOC90;
- in attempting to undertake job-matching, particularly hampered by the broad nature of the classification. Job seekers often had quite well-defined job titles, but had difficulties matching these to vacancies in the classification;
- certain occupational areas were developed in SOC90. These included information technology, health care, jobs, conservation and environment, and in what can loosely be termed 'caring' occupations.

Pressures to revise SOC90 were arising from the European Office of the European Communities (Eurostat) to harmonise national occupational classifications. This was achieved by mapping national statistical classifications to an international standard classification, known as the International Standard Classification of Occupations (ISCO). The submitted Labour Force Survey and Population Census data were not a common standard. Statistical analysis of these data revealed that to exist a severe definitional problem with the classification (1996). Defined as the managers of organisations, the UK had more, the UK had virtually three times the EU and the EU had more to this category. While some variation in occupational classification is to be expected, a difference of this scale was in-

other developments. In 1992 the Statistical (stat) commenced a programme of work to ons across the European Union. This was ifications to an agreed implementation of the as ISCO 88(COM). Subsequently, countries on Census data to Eurostat classified to this e data showed that, for the UK, there appeared category termed *Corporate managers* (Elias, tions and enterprises with 10 employees or average percentage of its workforce classified upational structure between EU countries is dicative of a significant classification problem.

Another source of pressure to reform SOC90 and Social class classifications² have been in use in a haphazard and rather unscientific manner. In collaboration between the Economic and Social Research Council, the Office of National Statistics, the *Review* proposed a commission which undertook a major analytical research programme to develop a new social classification which uses the unit group concept. Although the concept of ‘skill’ does not feature in the new classification, research and development work revealed a number of problems which led to a revision⁵.

Following from the OIU consultation process, the Commission considered all of this evidence and to make recommendations for a revision process. This body concluded that the current SOC90 was not fit for use. The Institute for Employment Research, in collaboration with the OIU, was contracted to undertake a major research process which was to be completed by 2000 in 2001. However, a number of constraints would be placed on the process. First, it was recognised that many users were known and unknown as possible. Although the inadequacies of SOC90 were obvious, jobs would inevitably mean that a revised classification would be developed. This desire for continuity translated into a requirement that the classification should not be changed, nor should it be a second constraint derived from the need to maintain compatibility with the Standard Classification of Occupations, itself a major constraint. In these strictures, a more practical consideration was the revision process - the limited resources available for the development of significant resources in terms of time and money. Large computerised databases were used to overcome these constraints to some extent.

2. The SOC Manual

The present manual is being published to enable employers and client-oriented applications to use SOC90 and to enable users of SOC-based occupational statistics to understand and coding practices according to which the manual is published as two volumes.

The remainder of Volume 1 comprises the first three sections which account of some important principles, concepts and methods which have been developed. Section 4 describes the principles of the detailed SOC structure of Unit, Minor, Subminor, and a description of each of the groups distinguished by sex and to the group typically carry out and common tasks.

Volume 2 mainly consists of a detailed alphabetical index of SOC90 and SOC2000 Unit Group to which each coding occupations. To assist consistent coding and to show the way in which the index has been compiled and to give the right index entry, given the kind of description used. These notes form the introductory sections to the index.

3. Principles and concepts

3.1 Types of economic activity classification

In classifying jobs and persons by reference to economic activity are generally recognised and separately measured. These are:

1. Economic activity status
2. Occupation
3. Status in employment
4. Industry

Economic activity status defines whether the person is a member of the workforce. In practice those in the workforce for or available for paid employment are classified as economically active. Many economically inactive persons (e.g. retired from employment) have, of course, had a period of paid employment.

Occupation is most often determined by reference to the person's time, but for persons not currently employed it is the most recent, or most recent main, job. The SOC principles are discussed below.

Status in employment refers to the relationship between the person and production (i.e. proprietor or self-employed) or to his or her position in the seniority structure (e.g. foreman/supervisor, manager, other employee). This is the same in every data source and there have been differences in the way it is measured.

following sections. Section 3 gives a brief of the notations and conventions according to which SOC is classified. Section 4 gives the position on updating SOC. Section 5 sets out the classification of Minor, Sub-major and Major Groups. Section 6 gives the classification of job tasks which persons classified to the group. Section 7 lists job titles which are classified to the group.

Section 8 gives an alphabetical index of job titles, giving both the classification and the SOC code to which each is assigned. This is designed for use in the classification of job titles. In some guidance notes are provided on the classification of job titles and on how to locate exactly the classification of the job typically provided by informants. Section 9 gives the classification of Volume 2.

1.1 Introduction

The classification of their economic activity four distinct concepts are measured in standard statistical sources. These are:

1. Whether a person is or is not at some reference time a person in paid employment and those currently looking for employment are classified as economically active and the remainder as economically inactive persons (e.g. most of those wholly unemployed and an occupation at some time in the past).

2. Whether a person's main job at the reference time is in the private or public sector may be determined by reference to the most common principles used in classifying occupations are:

3. Whether a person doing a job to the means of production (e.g. owner/manager versus employee); and, for an employee, to the status of the workplace (e.g. apprentice/trainee, casual worker, etc.). Not all these status distinctions are made in the classification differences over time and between different

classificatory schemes as to whether certain divisions of occupations or introduced separately.

Industry refers to the economic sector to which a job is assigned. It is usually defined by reference to the main workplace at or from which a job is carried out. For example, occupationally a carpenter will be classified as a carpenter in a building firm, but as a brewer, if employed by a brewery. It includes jobs located in many different industries. In general, classification of occupations to SOC2000 is by industry but for certain exceptions to this see the Notes on the Manual.

3.2 Objects to be classified and criteria of classification

SOC is designed as a classification applicable to all active persons in the United Kingdom. Defined by one person, the notion of a job represents a basic unit. Jobs are usually structured by employers (or by professional bodies and others, including professional bodies, employers' associations and governments, may regulate their definition. Jobs are classified by job title. They are classified into groups according to 'specialisation'. As in SOC90, skill level is defined by

'...duration of training and/or work experience in the field of employment concerned, and the ability to pursue the occupation competently'
(Employment Department Group, 1990)
(Censuses and Surveys, 1990)

Skill specialisation is defined as the field of knowledge and efficient conduct of the tasks. In some areas, the type of work performed (e.g. materials worker)

Skill levels are approximated by the length of time taken to become fully competent in the performance of the task. It is a function of the time taken to gain necessary knowledge and of work-based training. Apart from formal training, there are varying types of experience, possibly in other occupations. The broad structure of the classification (major divisions) can be made to these four skill levels.

⁷ In common with the 1988 International Standard Classification of Occupations, the levels of aggregation within the classification. These are termed 'major groups'. In SOC2000, as in ISCO-88, these are represented numerically by the first two digits of the code.

The first skill level equates with the common skills usually acquired by the time a person completes high school, signalled via a satisfactory set of school marks and the performance of jobs classified at this level. These jobs, health and safety regulations and may require specific training. Examples of occupations defined at this level include janitors, workers, hotel porters, cleaners and caterers.

The second skill level covers a large group of occupations with knowledge provided via a good general education. These occupations level, but which typically have a long period of work experience. Occupations classified at this level include health caring occupations, retailing, and clerical work.

The third skill level applies to occupations that require training associated with a period of post-compulsory education. A number of technical occupations fall into this category, as do occupations and proprietors of small businesses. These occupations qualifications at sub-degree level or a level equivalent to a diploma. A necessary prerequisite for competence in these occupations is a period of work experience is typical.

The fourth skill level relates to what is often referred to as managerial positions in corporate enterprises. Occupations at this level normally require a period of post-compulsory work experience.

Table 1 lists the sub-major groups of SOC2006. It can be seen from the names of these sub-major groups that they have been used to distinguish groups of occupations. For example, health professionals are distinguished from scientists, and metal and electrical trades from skilled construction workers.

competence associated with a general education, completes his/her compulsory education and school-leaving examination grades. Competent level will also involve knowledge of appropriate equipment and require short periods of work-related training. Occupations at this skill level within the SOC90 include postal sorting and mail sorting assistants.

A group of occupations, all of which require the completion of compulsory education as for occupations at the first skill level, may require a longer period of work-related training or work experience. Occupations at this level include machine operation, driving, and clerical and secretarial occupations.

Occupations that normally require a body of knowledge acquired through compulsory education but not to degree level. A large number of occupations fall into this category, as do a variety of trades and technical occupations and businesses. In the latter case, educational attainment and a lengthy period of vocational training may not be necessary for competent performance of tasks, but a significant period of training is required.

Occupations are termed 'professional' occupations and include occupations in enterprises or national/local government. These occupations require a degree or equivalent period of relevant education and training.

The SOC2000 and compares these with SOC90. As can be seen from the table, for skill groups, the skill specialisation criterion has been used to distinguish between skill levels within each skill level. Thus, for example, science and technology professionals and skilled construction and building trades.

Table 1: Skill levels and the sub-major groups

Skill level	Sub-major groups of:
	SOC2000
Level 4	11 Corporate managers 21 Science and technology professionals 22 Health professionals 23 Teaching and research professionals 24 Business and public service professions
Level 3	12 Managers and proprietors in agriculture and services 31 Science and technology associate professionals 32 Health and social welfare associate professionals 33 Protective service occupations 34 Culture, media and sports occupations 35 Business and public service associate professionals 51 Skilled agricultural trades 52 Skilled metal and electrical trades 53 Skilled construction and building trades 54 Textiles, printing and other skilled trades
Level 2	41 Administrative occupations 42 Secretarial and related occupations 61 Caring personal service occupations 62 Leisure and other personal service occupations 71 Sales occupations 72 Customer service occupations 81 Process, plant and machine operatives 82 Transport and mobile machine drivers and operatives
Level 1	91 Elementary trades, plant and storage related occupations 92 Elementary administration and service occupations

Note: Sub-major groups of SOC90 have been listed in their original position in SOC2000. It must be stressed however

Group structure of SOC2000 and SOC90

	SOC90

in the order which best approximates their equivalent
 over that there is no exact correspondence at this level.

Two of the new features of SOC2000 are also that the sub-major group structure of SOC2000 describes the classification. The first two digits describe the sub-major groups of the classification. This was a change from the 3-digit structure of SOC90. Secondly, the classification follows a more regular pattern within the classification, repositioning certain sub-major groups within the classification on a skill level criterion.

3.3 The revision of SOC90

From consideration of comments received from stakeholders undertaken in the *Review of Social Classification* conducted for Eurostat, work on the development of areas. These were:

Computing and related occupations

Whilst nearly all jobs have been affected by information and communication technology, which relate directly to the design and implementation of systems, it is crucial that this area should be overhauled.

Managerial occupations

For a variety of reasons, this area was included in the definition of managerial occupations. However, it was reason enough for this decision. It was pointed to forces such as ‘de-layering’ of organisations and to a potential ‘inflation’ of the use of the title ‘manager’ to be regarded as managerial⁸.

Conservation/environmental occupations

Shifting tastes and preferences have led to a greater emphasis on protection and conservation. SOC90 did not include these activities within its structure. During the development process, a number of comments highlighted this apparent omission.

Skill upgrading/de-skilling within manufacturing

Two sets of forces appear to underlie the changes in the manufacturing sector primarily with the manufacturing process.

⁸ A good example of this is the now frequent use of the title ‘trainee manager’.

is apparent from Table 1. First, it can be seen that SOC2000 is incorporated within the codes used to define the major and the sub-major groups of the SOC2000. This was not the case with SOC90. For this reason, the code structure of SOC2000, as opposed to the sub-major group structure of SOC2000 now used, is a major group classification. This has been achieved by reclassifying the major group structure according to the

from users of SOC90, as well as from the work of the *International Labour Office* and the harmonisation activities of SOC2000 was focused in a number

affected in some way by the rapid progress in technologies, at the forefront of these are the jobs of the future. The implementation of such technologies. It seemed that the need for reform was felt thoroughly.

need of reform. The apparent inconsistency between theory and practice in other EU countries. However, other strands of research evidence suggest that the need for reform in management structures in organisations is not the title ‘manager’ in jobs which should not

ns

led to an increasing demand for environmental protection. It did not recognise many specific occupations and their structure. During consultations undertaken in 1990, users had expressed particular concern over

manufacturing processes

change in occupations that are associated with the manufacturing process. The continued development of

in manager’ for the job known earlier as ‘senior conductor’.

manufacturing systems which move a customised production may have stimulated occupations in production, to facilitate the equipment used. Simultaneously, the design and control methods may have lessened the skills in many traditional craft occupations.

Customer service occupations

Shifts in consumer tastes and preferences associated with the wider availability of services, have stimulated the demand for testing and assurance and customer service customers. These developments appear in which the associated tasks lie at the interface and the consumers of goods and services.

Remote service provision

Development in information and communications demand for the provision of services stimulated the development of service provision. The growth in such demand may be due to a reduction in the availability of one hour services related to telephone, electricity and hours. While web-based commercial transactions may yet supersede these changes with the scale of employment change some categories to identify occupations in the

Sources of information about the terminology were available in a variety of sources and for most useful sources were derived from the Census Survey. While the 1991 Census of Population was valuable in determining how well SOC90 was on the quality of occupational detail obtained

The main source available from the 1991 Census individual records for England and Wales. The industry and post-schooling qualifications was census records and placed into a searchable database from the 1996/97 Labour Force Survey, covering such as the job title, main tasks performed in the Other sources of information on occupational Employment Service, which generated a database of job vacancies, all coded to SOC90.

away from mass production to small batch, stimulated the demand for technically qualified rapid re-tooling and other adjustments to the widespread use of computerised production and the need for workers to hold the specialised skills.

moves towards a more 'self-service' approach, of competitively-priced alternative goods and for and supply of after-sales service, quality 'loyalty' schemes to attract and maintain customers have given rise to a new set of occupations at the interface between the producers or distributors and consumers.

Communication technologies has facilitated the use of services outside 'normal' business hours and has enabled the provision from remote call centres. Part of this has been to latent demand and some may be a function of population ageing. The latter trend may have resulted in a new role for the household member to: shop, pay bills, or receive services such as electricity, gas, water, etc. during 'normal' business hours. The rapid growth in this area combined with the need for specific occupational skills in this area of work.

Information on the content of occupations and the work content of jobs was used for the revision of SOC90. By far the most recent source of information was the 1991 Census of Population and the Labour Force Survey. Although this is now somewhat dated, its information was operationalised and gave useful information on the content of jobs from census form-fillers.

The 1991 Census of Population was a 1/2% sample of the population. The text response to questions on occupation, was extracted from approximately 115 thousand jobs in the database. Similar information was extracted from the 1991 Census of Population and the Labour Force Survey consisting of 63 thousand jobs and consisting of details of the job and qualifications required for the job. Occupational descriptions were obtained via the database of 291 thousand detailed descriptions of jobs.

The Employment Service (ES) was keen to ensure that the classification for job matching purposes were as accurate as possible. To this end, the ES commissioned the IER to conduct a series of visits to Job Centres and via the collection of approximately 80 Job Centres, further information was gathered about the ES and the way in which these might be used.

Other sources of information, which proved useful to define the skill levels, were:

- the ‘371 database’ – an electronic encyclopedia of the 371 unit groups of SOC90;
- a database of queries collected over the years from SOC90 for coding occupational information;
- recently published material containing job titles (trade journals, newspaper advertisements, etc.);
- correspondence from interested parties (unions, employers, employer associations and others);
- information arising from the detailed consultation process in developing the new Social Classification.

These sources gave much valuable information and together yielded a ‘test-bed’ of data for experimentation with the new categories.

3.4 The structure of SOC2000

This section presents a brief summary of the changes from SOC90 to SOC2000.

Major Group 1 (Managers and senior officials)

The change of the name of this major group, from *Managers and senior officials* to *Managers and senior officials* reflects the substantial revision. Many job titles that were indicative of high level occupations are now repositioned in major group 4.

New minor and unit groups are now included in the area of Health and Social services. A new category of *and conservation managers*. In the area of housing and community services.

to ensure that its interests in occupational classification were adequately reflected in the new classification. The team decided to undertake a programme of research that would inform the revision of SOC90. This took the form of a review of the evidence gathered by SOC90 in this process. Through a selection of relevant information from a survey of employers, information was gained about the requirements for the new classification to be reflected in the revision process.

The team was also helpful in investigating processes of skill change and the impact of these were:

• The development of a cyclopaedia of statistical information structured according to SOC90 (McKnight and Elias, 1997);

• The collection of an eight year period from agencies using the classification for information;

• The collection of detailed descriptions of a wide variety of occupations, including advertising for job vacancies, careers guidance and training materials;

• The collection of views, including trades unions, trade associations, employers' organisations and government departments;

• The detailed scrutiny of SOC90 unit groups by the team to ensure consistency for the UK.

The team also worked on about the problem areas of the SOC and the relationship between the construction of new occupational classification and the revision of SOC90.

Some of the major changes that distinguish the new classification from SOC90 are:

(a)

• The change from *managers and administrators* to *managers and administrators* (a revision that has been made to this major group). This includes clerical work (e.g. administrative assistant) and other support work.

• The change from *quality and customer care managers*, and *quality and customer care managers* to *quality and customer care managers*, and a new unit group exists for *natural environment and recreation services*, new unit groups for *hospitality and leisure services*, new unit groups for *quality and customer care managers*, and *quality and customer care managers*.

exist for *conference and exhibition managers*, *agency managers*. In other service sector areas, establishments are defined more clearly, and *refuse disposal managers*.

Major Group 2 (*Professional occupations*)

In major group 2 new unit groups for *information professionals* have been created. *IT strategists* are distinct from *software professionals*. All software professionals involve a high level of knowledge of software and interaction, are now classified to major group 2, and moved to major group 3. These decisions also reflect the training bodies in this area.

Research professionals are now identified across major group 2. A new unit group was also created to capture *research assistants* are essentially administrative in nature, but with significant experience for competent performance.

Major Group 3 (*Associate professional and technical occupations*)

In major group 3 new unit groups that have been created are *technical occupations*. These are jobs that involve a technical skill and technical support to users. A new category is *information dental technicians*. *Social welfare associate professionals* and *community workers* separately from *housing and community workers* was created for *therapists*, including unit groups for *physical therapists* and *speech and language therapists*.

A significant effort was made to develop a better structure of occupations in the arts, literature, media, and culture. Fourteen unit groups are now used to classify occupations in business and finance, a new structure was introduced for *brokers* from major group 7 to major group 3. *Management associate professional occupations*.

A new minor group was created to facilitate reclassification within the SOC90 sub-major group, *protective services*, armed forces, police officers, fire service officers.

Major Group 4 (*Administrative and secretarial occupations*)

Major group 4 now classifies a number of administrative occupations placed in major group 1. New minor groups were created in government and related areas, finance, record management occupations.

ers, leisure and sports managers and travel

Major Group 5 (*Skilled trades occupations*)

Farmers have been relocated here from major group 9.

Major Group 6 (*Personal service occupations*)

New occupational areas have been defined for *personal occupations* and for *leisure and travel*.

Major Group 7 (*Sales and customer service occupations*)

In major group 7 a new minor group has been created for *occupations*.

Major Group 8 (*Process, plant and machine operators*)

A particular concern here was to reduce the number of minor groups that were no longer large enough for statistical purposes. This area of the occupational structure of employment has been reorganised.

Major Group 9 (*Elementary occupations*)

This major group now includes a significant number of occupations repositioned here from other major groups in the new classification. The repositioning of bar staff and waiters and waitresses has been moved to group 6. A new minor group has been created for *occupations*.

3.5 Structure of the classification

The major group structure is a set of broad occupational categories that can be useful in bringing together unit groups which share similar training, skills and experience commonly associated with work tasks. The divisions between major groups are based on SOC as far as possible with the international classification of occupations distinguished on similar criteria.

SOC90 had nine major groups, 22 sub-major groups and 100 minor groups. SOC2000 has nine major groups, 25 sub-major groups and 100 minor groups.

Table 2 shows the nine major groups of SOC, the qualifications, training and experience associated with the occupations classified within each major group.

Table 2: General Nature of Experience for Occupations

Major Group	General Nature of Qualifications and Experience for Occupations
Managers and Senior Officials	A significant amount of management and service requirements in business organisations and business.
Professional Occupations	A degree or equivalent postgraduate qualification and training.
Associate Professional and Technical Occupations	An associated high-level technical or professional substantial period of full-time related training is usual.
Administrative and Secretarial Occupations	A good standard of general education and further additional vocational training (e.g. typing or shorthand).
Skilled Trades Occupations	A substantial period of on-the-job or school-based training programme.
Personal Service Occupations	A good standard of general education and additional vocational training programme.
Sales and Customer Service Occupations	A general education and training in sales procedures. Some occupations may require specific training but are included in this category.
Process, Plant and Machine Operatives	The knowledge and experience in operating and stationary machine equipment, to assemble and maintain rules and procedures and to perform tasks in occupations in this major group. The competence that must be acquired for tasks and will have an associated training programme.
Elementary Occupations	Occupations classified as elementary level of education (i.e. compulsory education) and periods of work-related training in hygiene, and customer service.

experience necessary to operate vehicles and other mobile
equipment, to operate and monitor industrial plant and
to assemble products from component parts according to strict
instructions and subject assembled parts to routine tests. Most
occupations in the major group will specify a minimum standard of
performance to be attained for satisfactory performance of the associated
tasks and a minimum period of formal experience-related training.

at this level will usually require a minimum general
education which is provided by the end of the period of
secondary education. Some occupations at this level will also have short
periods of training in areas such as health and safety, food
service requirements.

3.6 The impact of reclassification

To gain some indication of the potential impact on the definition of occupational structure, the 1½% sample of the 1991 Census of Population was coded to SOC90. While this is a guide to the measurement of occupational structure, these figures should be treated with caution. The most obvious point to make is that the coding was done some time ago. Many of the new categories in SOC2000 have not yet been defined. Furthermore, the process of reclassifying data from SOC90 to SOC2000 involves much expert judgement and discussion, and that, by its nature, is error prone. To address this, the Labour Force Survey (Winter 1996/7) was re-coded. This was done using the same coding as the original⁹ and the coding to SOC2000 is given in Table 3.1 as a reference to the original SOC90 unit group codes.

Figures 1 and 2 show, for males and females separately, the percentage of employment in England and Wales between 1991 and 1996/7, by major group, to the major group structure of SOC90 and SOC2000. Overlapping bars are shown for each major group, showing the percentage of employment in the major group. The two bars for each group show the structure as recorded in 1991, by SOC90 then by SOC2000. The bars for each group reveal how these percentages have changed.

There are a number of areas where the move to SOC2000 has changed the perception of the occupational structure of the economy. For example, the tightening of the definition of *Senior Officials* (the tightening of the definition of *Senior Officials* category significantly, especially for females (a 10 per cent reduction for males)). Major group 1 (*Administrative and Secretarial Occupations*) increases in size, more so for males (from 12 per cent to 14 per cent) than for females (from 10 per cent to 11 per cent). Major group 6 (*Personal Services*) increases almost three-quarters, and by about a quarter for males (from 12 per cent to 14 per cent) and bar staff to major group 9 (*Elementary Occupations*) increases from 8 per cent to 9 per cent of this major group, which rises from 8 per cent to 9 per cent of male employment and from 9 per cent of female employment to 10 per cent.

The effect of moving from SOC90 to SOC2000 is shown in Table 3.1. The 1991 Census data with the Winter 1996/7 quarterly data show that changes in occupational structure are apparent in the 1991 Census data. In skilled trades occupations for males and secretarial occupations for females, the relative proportions of the population in each classification remains the same for each period.

⁹ The Labour Force Survey is coded by interviewers upon completion of the survey. The coding to SOC2000 was undertaken by a small centralised team of office staff.

et of these and a wide variety of other changes the Occupation Information Unit reclassified a for England and Wales which was originally potential impact of SOC2000 in terms of the e comparisons must be treated with a degree s that the Census took place almost a decade 00 may now be populated quite differently. a is different from the process of coding. The discussion. The latter is a more routine process s these issues, a single quarter of the Labour he coding procedures adopted were somewhat SOC2000 unit groups was performed without odes.

eparately, changes in the occupational structure 1991 and 1996/7, with employment classified d SOC2000. In both of these charts four r group, indicating the percentage of total s placed furthest back show the occupational n by SOC2000. The two bars to the front of e changed by Winter 1996/7.

o SOC2000 will have a marked impact upon f employment. In major group 1 (*Managers* finition of managers reduces the size of this (4 per cent reduction for females and 2 per 3 (*Associate Professional and Technical* or men than for women. Major group 4) declines significantly for males and slightly (*Occupations*) declines sharply for males, by for females. The shift of waiters, waitresses (*Occupations*) has a marked effect upon the size ent of male employment to over 12 per cent o over 16 per cent.

000 is almost identical when comparing the arter of the Labour Force Survey. Although between 1991 and 1996/7, notably the decline the decline in administrative, clerical and ve effect of moving from the old to the new iod. There is one exception however. For

letion of a batch of interviews. The recoding of this same data to e coders.

females, SOC90 appeared to indicate a slight increase in the number of females classified to Major group 1 (*Managers and Administrators*). The Redefinition of this group to exclude administrative occupations was a response to growth in the more narrowly defined management occupations.

ht decline in the proportion of employment
(*Senior Officials*) between 1991 and 1996/7.
trative occupations reveals some underlying
rial category.

4. Updating of SOC

Changes occur in work organisation as a result of new materials, improved methods of production or new tasks arise either because tasks are enlarged, contracted or new occupations or because new, different tasks arise. Such new occupations may become sufficient to warrant inclusion in the classification. Additionally, new occupations may arise.

The Occupational Information Unit, of the Office for National Statistics, would welcome information on such changes for the periodical updating of SOC. For SOC90 we have been working since 1995. For SOC2000 we are considering the possibility of an index, not in printed form, but to the index file.

9

**1219 MANAGERS IN ANIMAL
HUSBANDRY, FORESTRY AND
FISHING NEC**

Managers in this unit group perform a variety of managerial tasks in farming, horticulture, forestry

and fishing not elsewhere classified in MINOR GROUP 121: Managers in Farming, Horticulture, Forestry and Fishing.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry requirements range from no qualifications to degree level or equivalent awards depending on the occupation. Off- and on-the-job training is provided. Professional qualifications and NVQs/SVQs are available in some areas.

TASKS

- determines staffing, financial and other long and short term needs and keeps records on finance, production and breeding;
- decides, or advises on, type of animal to be bred and/or trained and selects, buys and trains animals accordingly;
- plans and directs the establishment of forest nurseries, assumes responsibility for a particular area of forest/woodland and regularly inspects forest work;
- selects suitable breeding grounds for shellfish, sea and freshwater fish and purchases stock;
- advises farmers and horticulturists on cropping requirements, cultivation problems and gardening and grounds keeping;
- organises, co-ordinates and directs farming, fishing and forestry activities not elsewhere classified, including tree felling, agricultural contracting and offshore fishing.

RELATED JOB TITLES

Cattery owner
Fish farm manager
Kennels owner
Nursery manager (*horticulture*)
Racehorse trainer

MINOR GROUP 12 MANAGERS AND PROPRIETORS OF HOTELS, RESTAURANTS AND LEISURE CENTRES

Workers in this minor group plan, organise, direct and co-ordinate (with other managers) the activities and resources of hotels, holiday camps, establishments, restaurants, recreation and entertainment centres, facilities and travel agencies.

Occupations in this minor group are classified as follows:

1221 HOTEL AND ACCOMMODATION MANAGERS

1222 CONFERENCE AND EXHIBITION MANAGERS

1223 RESTAURANT AND CATERING MANAGERS

1224 PUBLICANS AND MANAGERIAL ASSISTANTS

1225 LEISURE AND SPORTS MANAGERIAL ASSISTANTS

1226 TRAVEL AGENCY MANAGERS

1221 HOTEL AND ACCOMMODATION MANAGERS

Job holders in this unit group plan, organise, direct and co-ordinate the activities and resources of hotels, hostels, lodging homes, holiday camps, holiday flats and chalets and organise the domestic, catering, and entertainment facilities on passenger ships.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry is possible with a variety of academic qualifications and/or relevant experience. Larger hotel chains offer managerial trainee schemes. Candidates for these usually require a BTEC/SQA award, a degree or equivalent qualification, or a professional qualification. Off- and on-the-job training is provided. NVQs/SVQs in Accommodation Management are available at Level 4.

TASKS

- analyses demand and decides on type, standard and cost of services to be offered;
- ensures physical comfort of residents or passengers and makes special arrangements for children, the elderly and the infirm if required;

GROUP 122

MANAGERS IN HOSPITALITY AND RECREATION SERVICES

Direct and co-ordinate (usually with the help of staff) the activities of hotels, public houses and similar entertainment establishments, leisure and sports centres.

Divided into the following unit groups:

RESTAURANT MANAGERS

BAR AND LUNcheon ROOM MANAGERS

CLUB AND LEISURE CENTRE MANAGERS

MANAGERS OF LICENSED PREMISES

MANAGERS OF

RECREATION

- approves and arranges shipboard entertainment and shore trips and liaises with ship's agent to ensure that ship is adequately provisioned;
- arranges for payment of bills, keeps accounts and adheres to licensing and other statutory regulations.

RELATED JOB TITLES

Caravan park owner
Guest house proprietor
Hotel manager
Hotelier

1222 CONFERENCE AND EXHIBITION MANAGERS

Conference and exhibition managers plan, organise, co-ordinate and direct the resources necessary for the staging of conferences, exhibitions and other similar events.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry is possible with a variety of academic qualifications and/or relevant experience. Larger

conference and exhibition management companies may offer training schemes. Candidates for these typically require a BTEC/SQA award, a degree or an equivalent qualification. Off- and on-the-job training is provided.

TASKS

- discusses conference and exhibition requirements with clients;
- develops proposals encompassing technical and creative inputs, and presents proposals to clients;
- allocates exhibition space to exhibitors;
- plans work schedules, assigns tasks, and co-ordinates the activities of designers, crafts persons, technical staff, caterers and other events staff;
- ensures that Health and Safety and other statutory regulations are met.

RELATED JOB TITLES

Conference manager
Exhibition manager

1223 RESTAURANT AND CATERING MANAGERS

Restaurant and catering managers plan, direct and co-ordinate the catering services of restaurants, hotels and other organisations.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry is possible with a variety of academic qualifications and/or relevant experience. Larger restaurants and catering chains offer managerial trainee schemes. Candidates for these usually require a BTEC/SQA award, a degree or equivalent qualification, or a professional qualification. Off- and on-the-job training is provided. NVQs/SVQs in Restaurant Management are available at Level 4.

TASKS

- plans catering services and directs junior staff;
- decides on range and quality of meals and beverages to be provided or discusses customer's requirements for special occasions;

- purchases or directs the purchasing of supplies and arranges for preparation of accounts;
- verifies that quality of food, beverages and waiting service are as required and that kitchen and dining areas are kept clean in compliance with statutory requirements;
- plans and arranges food preparation in collaboration with other staff and organises the provision of waiting or counter staff;
- checks that supplies are properly used and accounted for to prevent wastage and loss and to keep within budget limit.

RELATED JOB TITLES

Canteen manager
 Catering manager
 Fish and chip shopkeeper
 Restaurant manager
 Restaurateur

1224 PUBLICANS AND MANAGERS OF LICENSED PREMISES

Publicans and managers of licensed premises organise, direct and co-ordinate the activities and resources of non-residential and residential public houses and the bar and catering facilities at non-residential clubs.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No formal academic qualifications are required. Relevant experience is advantageous and candidates must be over 18 years of age. Larger chains offer accelerated promotion for holders of degrees or equivalent qualifications. Off- and on-the-job training is provided. NVQs/SVQs in On-Licensed Premises Management are available at Level 4.

TASKS

- maintains financial records for the establishment;
- arranges purchase of alcoholic and other beverages, bar snacks, cigarettes and other items and ensures that stocks are stored in proper conditions;

- supervises bar, kitchen and cleaning staff and, if necessary, assists with the serving of drinks;
- observes licensing laws and other statutory regulations and regulates behaviour of customers as necessary.

RELATED JOB TITLES

Club steward

Licensee

Public house manager

Publican

1225 LEISURE AND SPORTS MANAGERS

Leisure and sports managers organise, direct and co-ordinate the activities and resources required for the provision of sporting, artistic, theatrical and other recreational and amenity services.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Both graduate and non-graduate entry is possible. Employers are however increasingly seeking applicants with BTEC/SQA awards, degrees or equivalent qualifications. Off- and on-the-job training is provided. NVQs/SVQs in Sports and Recreation Management are available at Level 4. Professional qualifications may also be required for some posts.

TASKS

- recruits, supervises and trains box office staff, cashiers, gardeners, coaches, groundsmen/women;
- ensures that facilities are kept clean and in good condition;
- keeps abreast of new trends and developments in the creative arts and arranges exhibitions, theatrical productions, bands, orchestras, etc.;
- advises on the facilities available and promotes publicity in relation to shows, games, races, new theme parks, etc.;
- checks and keeps custody of all cash receipts and makes regular stock checks.

RELATED JOB TITLES

Leisure centre manager
 Manager (*snooker, billiards hall*)
 Riding school owner
 Sports centre manager

1226 TRAVEL AGENCY MANAGERS

Travel agency managers plan, organise, direct and co-ordinate the resources and activities of travel agencies and booking offices.

1

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry is most common with GCSEs/S grades but is possible with other academic qualifications and/or relevant experience. Off- and on-the-job training is available. NVQs/SVQs in Travel Services are available at Level 4.

2

3

TASKS

- plans work schedules and assigns tasks and responsibilities;
- co-ordinates the activities of clerical, secretarial and other staff;
- discusses client's requirements and advises on road, rail, air and sea travel and accommodation;
- makes and confirms travel and accommodation bookings, arranges group holidays, tours and individual itineraries;
- advises on currency and passport/visa regulations and any necessary health precautions needed.

TORS IN OTHER SERVICES NEC

legal formalities with solicitors, building societies and other parties;

- maintains or arranges for the maintenance of estate accounts and records;
- acts as arbiter in disputes between landlord and tenant and ensures that both fulfil their legal obligations;
- examines and assesses housing applications, advises on rent levels, investigates complaints, maintains estate's amenities and liaises with tenants' association and social workers to resolve any family problems.

RELATED JOB TITLES

Housing manager
Property manager
Shopping centre manager

1232 GARAGE MANAGERS AND

PROPRIETORS

Garage managers and proprietors plan, organise, direct and co-ordinate the day-to-day running of garages and specialist vehicle maintenance and repair establishments.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no pre-set entry requirements, although some employers may require GCSEs/S grades or Intermediate GNVQs/GSVQs Level II. Off- and on-the-job training is provided.

TASKS

- ensures that necessary spare parts, materials and equipment are available or obtainable at short notice;
- arranges for maintenance staff to perform necessary maintenance and repair work on vehicles or motorcycles;
- checks completed work for compliance with safety and other statutory regulations;
- maintains records of repair work to detect recurrent faults;
- provides information about garage merchandise for staff and customers.

RELATED JOB TITLES

Body shop manager (*vehicle trades*)
Garage manager
Garage owner
Service manager (*garage*)

1233 HAIRDRESSING AND BEAUTY SALON MANAGERS AND PROPRIETORS

Workers in this unit group plan, organise, direct and co-ordinate the activities and resources of hairdressing salons, health clubs, beauty treatment and similar establishments.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No formal qualifications are required for entry. Candidates usually possess a BTEC/SQA award, an NVQ/SVQ in Hairdressing at Level 3 and/or relevant experience.

TASKS

- determines staffing, financial, material and other short and long term needs;
- controls the allocation, training and remuneration of hairdressing, beauty treatment and health club staff;
- provides clients with information and resolves any complaints or problems;
- undertakes and/or directs hair treatments, beauty therapy or health and fitness activities;
- checks and maintains any health and fitness equipment, and ensures that all safety requirements are met;
- prepares estimates, financial statements and other reports.

2

1235 RECYCLING AND REFUSE DISPOSAL MANAGERS

3

Recycling and refuse disposal managers plan, organise, direct and co-ordinate the operations and development of waste disposal and recycling facilities within private waste management firms or public authorities.

4

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

5

Entry is possible with a variety of academic qualifications and/or relevant experience. Professional qualifications are available from the Institute of Waste Management. Professional qualifications may be mandatory in some operational management posts.

6

TASKS

7

- delegates tasks to staff and co-ordinates the maintenance and optimum utilisation of waste disposal and recycling equipment to provide an efficient service;
- monitors levels of waste disposal and recycling, compiles statistics and produces reports;
- liaises with members of the local community to educate and promote the concept of recycling and appropriate waste management;

8

9

- studies legislation and liaises with waste enforcement regulation staff to ensure the compliance with legislation regarding waste disposal and recycling;
- co-ordinates the resources and activities relating to the procurement, collection, storage, processing and sale of scrap metal.

RELATED JOB TITLES

General dealer

Manager (*refuse disposal*)

Recycling manager

Scrap metal merchant

1239 MANAGERS AND PROPRIETORS IN OTHER SERVICES NEC

Workers in this unit group perform a variety of managerial tasks in other service industries not elsewhere classified in MINOR GROUP 123: Managers and Proprietors in Other Service Industries.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry requirements vary from company to company. Some companies do not require candidates to have academic qualifications but others require a degree or equivalent qualification. Off- and on-the-job training is provided.

TASKS

- determines staffing, financial, material and other short and long term requirements;
- ensures that adequate reserves of merchandise are held and that stock keeping is carried out efficiently;
- authorises payment for supplies received and decides on vending price and credit terms;
- examines quality of merchandise and ensures that effective use is made of advertising and display facilities.

MAJOR C PROFESSIONAL

This major group covers occupations whose main tasks require knowledge and experience in the natural sciences, engineering, technology, and related fields. The main tasks consist of the application of theoretical knowledge, increasing the stock of knowledge, and communicating such knowledge by teaching.

Most occupations in this major group will require postsecondary education, with some occupations requiring postgraduate education and some experience-related training.

Occupations in this major group are classified into the following groups:

21 SCIENCE AND TECHNOLOGY PROFESSIONALS

- 211 SCIENCE PROFESSIONALS**
- 212 ENGINEERING PROFESSIONALS**
- 213 INFORMATION AND COMMUNICATIONS PROFESSIONALS**

22 HEALTH PROFESSIONALS

- 221 HEALTH PROFESSIONALS**

23 TEACHING AND RESEARCH PROFESSIONALS

- 231 TEACHING PROFESSIONALS**
- 232 RESEARCH PROFESSIONALS**

24 BUSINESS AND PUBLIC SERVICE PROFESSIONALS

- 241 LEGAL PROFESSIONALS**
- 242 BUSINESS AND STATISTICAL PROFESSIONALS**
- 243 ARCHITECTS, TOWN PLANNERS, AND RELATED**
- 244 PUBLIC SERVICE PROFESSIONALS**
- 245 LIBRARIANS AND RELATED**

GROUP 2

OCCUPATIONS

Main tasks require a high level of knowledge in the natural sciences, engineering, life sciences, social sciences, humanities and arts, and the practical application of an extensive body of knowledge by means of research and development methods and other means.

Require a degree or equivalent qualification, or specific qualifications and/or a formal period of training.

Divided into the following sub-major and minor groups:

1. SCIENTIFIC PROFESSIONALS

1.1. NATURAL SCIENCES

1.2. ENGINEERING AND TECHNOLOGY

2. PROFESSIONALS

2.1. SOCIAL SCIENCES

SUB-MAJOR SCIENCE AND TECHNOLOGY

Science and technology professionals undertake research in the physical sciences; technically supervise the design of mechanical, chemical, structural and electrical systems; and the technical aspects of production programmes. They provide services in the provision and utilisation of information technology.

1

MINOR GROUP SCIENCE PROFESSIONALS

Science professionals are involved in planning, research, development, providing, technical, advisory and management services in chemistry, biological sciences, physics, geology and astronomy.

2

Occupations in this minor group are classified as follows:

3

2111 CHEMISTS

2112 BIOLOGICAL SCIENTISTS AND ASTRONOMERS

2113 PHYSICISTS, GEOLOGISTS AND ASTRONOMERS

4

2111 CHEMISTS

Chemists analyse and research physical aspects of chemical structure and change within substances and develop chemical techniques used in the manufacture or modification of natural substances and processed products.

5

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

6

Entrants usually possess a degree. Entry may also be possible with an appropriate BTEC/SQA award, an Advanced GNVQ/GSVQ Level III, or other academic qualifications. Further specialist training is provided on the job. Some employers may expect entrants to gain professional qualifications.

7

TASKS

8

- develops experimental procedures, instruments and recording and testing systems;
- conducts experiments to identify chemical

9

GROUP 21 TELECOMMUNICATIONS TECHNOLOGY PROFESSIONALS

perform research and consultancy activities within the development, installation and maintenance of telecommunications systems; advise upon and direct the design and construction of telecommunications systems; and provide consultancy and development services in the field of telecommunications technology.

GROUP 211 ELECTRONICS TECHNOLOGY PROFESSIONALS

performing, directing and undertaking research and development and consultancy services in the fields of electronics technology and meteorology.

divided into the following unit groups:

UNIT GROUP 2111 CHEMISTS AND BIOCHEMISTS

UNIT GROUP 21111 CHEMISTS AND METEOROLOGISTS

investigate the composition, energy and chemical changes in natural substances and processed materials;

- analyses results and experimental data;
- tests techniques and processes for reliability under a variety of conditions;
- develops procedures for quality control of manufactured products.

RELATED JOB TITLES

Analytical chemist
Chemist
Development chemist
Industrial chemist
Physical chemist
Research chemist

2112 BIOLOGICAL SCIENTISTS AND BIOCHEMISTS

Biological scientists and biochemists examine and investigate the morphology, structure, chemistry and

physical characteristics of living organisms, including their inter-relationships, environments and diseases.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants usually possess a degree. Entry may also be possible with an appropriate BTEC/SQA award, an Advanced GNVQ/GSVQ Level III, or other academic qualifications. Further specialist training is provided on the job. Some employers may expect entrants to gain professional qualifications.

TASKS

- studies the physical and chemical form, structure, composition and function of organs and tissues;
- identifies and studies the chemical substances, including microbial infections, involved in physiological processes and the progress of disease;
- performs blood tests to study physiological and pathological characteristics within blood cells;
- researches the effects of internal and external environmental factors on the life processes and other functions of living organisms;
- observes the structure of communities of organisms in the laboratory and in their natural environment;
- advises farmers, medical staff and others, on the nature of field crops, livestock and produce and on the treatment and prevention of disease;
- monitors the distribution, presence and behaviour of plants, animals and aquatic life, and performs other scientific tasks related to conservation not performed by workers in UNIT GROUP 3551: Conservation and Environmental Protection Officers.

RELATED JOB TITLES

Biochemist

Biologist

Botanist

Medical laboratory scientific officer

Microbiologist

Pathologist

Zoologist

2113 PHYSICISTS, GEOLOGISTS AND METEOROLOGISTS

Physicists, geologists and meteorologists study relationships between matter, energy and other physical phenomena, the nature, composition and structure of the Earth and other planetary bodies and forecast weather conditions and electrical, magnetic, seismic and thermal activity.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants usually possess a degree, although entry may also be possible with an appropriate BTEC/SQA award. Further specialist training is provided on the job. Higher degrees and professional qualifications are available.

TASKS

- conducts experiments and tests and uses mathematical models and theories to investigate the structure and properties of matter, transformations and propagations of energy, the behaviour of macro-molecules and living cells and their interaction with various forms of energy;
- uses surveys, seismology and other methods to determine the earth's mantle, crust, rock structure and type, and to analyse and predict the occurrence of seismological activity;
- observes, records and collates data on atmospheric conditions from weather stations, satellites, and observation vessels to plot and forecast weather conditions;
- applies mathematical models and techniques to assist in the solution of scientific problems in industry and commerce and seeks out new applications of mathematical analysis.

- 2128 PLANNING AND QUALITY CONTROL ENGINEERS
- 2129 ENGINEERING PROFESSIONALS

2121 CIVIL ENGINEERS

Civil engineers undertake research and design, direct construction and manage the operation and maintenance of civil and mining engineering structures.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Civil engineers usually possess an accredited three or four-year degree in civil engineering or engineering science or an accredited Higher National Diploma or Certificate. The status of 'chartered engineer' is achieved through the completion of postgraduate training and membership of a chartered engineering institution. The status of 'incorporated engineer' is obtained upon the completion of further training at work and associate membership of a chartered engineering institution.

TASKS

- undertakes research and advises on mineral deposits, soil mechanics, concrete technology, hydraulics, water and waste water treatment processes and other civil engineering matters;

GROUP 212

PROFESSIONALS

technically supervise the construction, testing, structural, chemical, electrical and electronic technical aspects of production programmes, procedures to ensure efficiency and quality.

CONTROL ENGINEERS

NALS NEC

- determines and specifies construction methods, materials, quality and safety standards and ensures that equipment operation and maintenance comply with design specifications;
- designs structures such as roads, dams, bridges, railways, hydraulic systems, sewerage systems, industrial and other buildings and plans the layout of tunnels, wells and construction shafts;
- organises and plans projects, arranges work schedules, carries out inspection work and plans maintenance control;
- organises and establishes control systems to monitor operational efficiency and performance of materials and systems.

RELATED JOB TITLES

City engineer
Civil engineer
Mining engineer
Municipal engineer
Petroleum engineer
Structural engineer

2122 MECHANICAL ENGINEERS

Mechanical engineers undertake research and design, direct the manufacture and manage the operation and maintenance of engines, machines, aircraft, vehicle and ships' structures and other mechanical items.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Mechanical engineers usually possess an accredited university degree. After qualifying, periods of appropriate training and experience are required before membership of a chartered engineering institution. Incorporated engineers possess an accredited university degree, BTEC/SQA award or a Modern Apprenticeship leading to an NVQ/SVQ at Level 4, followed by periods of training and relevant experience.

TASKS

- undertakes research and advises on energy use, materials handling, thermodynamic processes, fluid mechanics, vehicles and environmental controls;
- determines materials, equipment, piping, capacities, layout of plant or system and specification for manufacture;
- designs mechanical equipment, such as steam, internal combustion and other non-electrical motors for railway locomotives, road vehicles, aeroplanes and other machinery;
- ensures that equipment, operation and maintenance comply with design specifications and safety standards;
- organises and establishes control systems to monitor operational efficiency and performance of materials and systems.

RELATED JOB TITLES

Aeronautical engineer (professional)
Automobile engineer (professional)
Hydraulic engineer (professional)
Marine engineer (professional)
Mechanical engineer (professional)
Welding engineer (professional)

2123 ELECTRICAL ENGINEERS

Electrical engineers undertake research and design, direct construction and manage the operation and maintenance of electrical equipment, power stations and other electrical products and systems.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Electrical engineers usually possess an accredited university degree. After qualifying, periods of appropriate training and experience are required before membership of a chartered engineering institution. Incorporated engineers possess an accredited university degree, BTEC/SQA award or a Modern Apprenticeship leading to an NVQ/SVQ at Level 4. All routes are followed by periods of appropriate training and relevant experience.

TASKS

- supervises, controls and monitors the operation of electrical generation, transmission and distribution systems;
- determines and specifies manufacturing methods of electrical systems;
- ensures that manufacture, operation and maintenance comply with design specifications and contractual arrangements;
- organises and establishes control systems to monitor the performance and safety of electrical assemblies and systems.

Radio engineer (professional)

2125 CHEMICAL ENGINEERS

Chemical engineers undertake research on commercial scale chemical processes and processed products, design and provide specifications and direct the construction, operation, maintenance and repair of chemical plants and control systems.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Chemical engineers usually possess an accredited university degree. After qualifying, periods of

appropriate training and experience are required before membership of a chartered engineering institution. Incorporated engineers possess an accredited university degree, BTEC/SQA award or a Modern Apprenticeship leading to an NVQ/SVQ at Level 4. All routes are followed by periods of appropriate training and relevant experience.

TASKS

- undertakes research and develops processes to achieve physical and/or chemical change for oil, pharmaceutical, synthetic, plastic, food and other products;
- designs, controls and constructs process plants to manufacture products;
- ensures that production methods, materials and quality standards conform to specifications and safety requirements;
- manages the safe and efficient operation, maintenance and control of processing plant;
- prepares reports, feasibility studies and costings for major investments in processing facilities for increased capacity and novel product manufacture.

RELATED JOB TITLES

Chemical engineer

Plastics engineer (professional)

2126 DESIGN AND DEVELOPMENT ENGINEERS

Design and development engineers conceive engineering designs from product ideas or requirements in mechanical, electrical and electronic engineering.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Design and development engineers usually possess an accredited university degree. After qualifying, periods of appropriate training and experience are required before membership of a chartered engineering institution. Incorporated engineers

possess an accredited university degree, BTEC/SQA award or a Modern Apprenticeship leading to an NVQ/SVQ at Level 4. All routes are followed by periods of appropriate training and relevant experience.

TASKS

- assesses product requirements, including costs, manufacturing feasibility and market requirements;
- prepares working designs for steam, aero, turbine, marine and electrical engines, mechanical instruments, aircraft and missile structures, vehicle and ship structures, plant and machinery equipment, domestic electrical appliances and electronic computing and telecommunications equipment;
- arranges construction and testing of model or prototype and modifies design if necessary;
- produces final design information for use in preparation of layouts, parts lists, etc.;
- prepares specifications for materials and other components.

RELATED JOB TITLES

Design consultant
Design engineer
Development engineer

2127 PRODUCTION AND PROCESS ENGINEERS

Production and process engineers advise on and direct technical aspects of production programmes to ensure cost-effectiveness and efficiency.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Production and process engineers usually possess an accredited university degree. After qualifying, periods of appropriate training and experience are required before membership of a chartered engineering institution. Incorporated engineers possess an accredited university degree, BTEC/SQA

award or a Modern Apprenticeship leading to an NVQ/SVQ at Level 4. All routes are followed by periods of appropriate training and relevant experience.

TASKS

- studies existing and alternative production methods, regarding work flow, plant layout, types of machinery and cost;
- recommends optimum equipment and layout and prepares drawings and specifications;
- devises production control methods to monitor operational efficiency;
- investigates and eliminates potential hazards and bottlenecks in production;
- advises management on new production methods, techniques and equipment;
- liaises with materials buying, storing and controlling departments to ensure a steady flow of supplies.

RELATED JOB TITLES

Process engineer
Production consultant
Production engineer

2128 PLANNING AND QUALITY CONTROL ENGINEERS

Planning and quality control engineers plan production schedules, work sequences, and manufacturing and processing procedures to ensure accuracy, quality and reliability.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Planning and quality control engineers usually possess an accredited university degree. After qualifying, periods of appropriate training and experience are required before membership of a chartered engineering institution. Incorporated engineers possess an accredited university degree, BTEC/SQA award or a Modern Apprenticeship

leading to an NVQ/SVQ at Level 4. All routes are followed by periods of appropriate training and relevant experience.

TASKS

- analyses plans, drawings, specifications and safety, quality, accuracy, reliability and contractual requirements;
- prepares plan of sequence of operations and completion dates for each phase of production or processing;

2443 PROBATION OFFICERS
2444 CLERGY

2

**2441 PUBLIC SERVICE
ADMINISTRATIVE
PROFESSIONALS**

- 3
- Public service administrative professionals advise on the implementation and formulation of government policy, develops and implements the administrative policies of government departments, and co-ordinates and directs the resources and activities of offices of local and national government departments.
- 4

**TYPICAL ENTRY ROUTES AND
ASSOCIATED QUALIFICATIONS**

- 5
- Entrants typically possess a degree or an equivalent qualification. Entry is also possible by internal promotion for those with appropriate experience. Training is typically provided on-the-job in the form of short courses for specialist areas.
- 6

TASKS

- 7
- advises government on the interpretation and implementation of policy decisions, acts and regulations, and provides technical assistance in the formulation of government policy;
 - co-ordinates the activities of departmental staff, assigns tasks and responsibilities and makes changes in procedures to deal with variations in workload;
- 8

9

GROUP 244

PROFESSIONALS

formulation and implementation of government departments; provide information, advice and support to groups; supervise, counsel and help offenders; etc.

divided into the following unit groups:

ADMINISTRATIVE PROFESSIONALS

- co-ordinates and directs the activities of Inland Revenue offices, Job Centres, Benefits Agency offices and other local offices of national government;
- develops and implements administrative policies of government departments, including pay arrangements, personnel and training policies and capital projects;
- registers and maintains records of all births, deaths and marriages in local authority area, issues appropriate certificates and reports any suspicious causes of death to the coroner.

RELATED JOB TITLES

Area officer (*local government*)
Civil servant (grade 6,7)
Divisional officer (*local government*)
Principal/Grade 7 (*government*)
Registrar of births, deaths and marriages
Superintendent registrar

2442 SOCIAL WORKERS

Social workers provide information, advice and support to protect the welfare of vulnerable groups including children, young people, families under stress, people with disabilities, elderly people and people who are mentally or physically ill.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Both graduate and non-graduate entry is possible. Entrants are required to take the Diploma of Social Work professional qualification. Exemptions may be possible for those with relevant qualifications and/or experience.

TASKS

- liaises with other health and social care professionals to identify those in need and at risk within the local community;
- interviews individuals and groups to assesses the nature and extent of difficulties;
- arranges for further counselling or assistance in the form of financial or material help;
- attempts to resolve family problems and, if necessary, arranges for children to be resettled with foster parents or in a children's home;
- keeps case records and prepares reports.

RELATED JOB TITLES

Child care officer
Child protection officer
Social worker
Team leader (*social work*)

2443 PROBATION OFFICERS

Probation officers supervise, counsel and help offenders before trial, during any prison or community sentence and on their release from prison.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Candidates are recruited with a variety of academic qualifications or with relevant experience. In England and Wales off- and on-the-job training is provided leading to NVQ in Community Care at Level 4. In Scotland, entry requirements are the same as for social workers.

TASKS

- produces pre-sentence reports to the court about an individual's crime, their personal circumstances, the suitability of sentencing, the likelihood of re-offending and the future risk to the public;
- enforces court orders and serves the public by providing a wide range of supervision programmes for those in receipt of a community sentence;
- draw up probation plans with offenders and help them follow it, advise them on any work and help them with any family or social problems;
- works with prisoners in giving advice on problems such as drug and alcohol abuse, addressing training needs, finding work and getting accommodation.

1

2

RELATED JOB TITLES

Community service officer
Probation officer

3

2444 CLERGY

Members of the clergy provide spiritual motivation and guidance, conduct worship according to the form of service of a particular faith/denomination and perform related functions associated with religious beliefs and practices.

4

5

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants typically possess GCSEs/S grades, A levels/H grades, a degree or equivalent qualification. Candidates must pass a residential selection procedure. Entrants then attend theological college where training includes theological instruction and practical pastoral experience. Training can last up to six years depending upon age, experience and denomination.

6

7

TASKS

- prepares and delivers sermons and talks and leads congregation in worship;

8

9

- interprets doctrines and instructs intending clergy members in religious principles and practices;
- performs marriages, funerals, christenings and other special religious services;
- visits members of the congregation in their homes and in hospitals and counsels those in need of spiritual or moral guidance;
- undertakes administration and social duties as required.

3114 BUILDING AND CIVIL ENGINEERING TECHNICIANS

Building and civil engineering technicians perform a variety of miscellaneous technical support functions to assist civil and building engineers.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants usually possess a relevant BTEC/SQA award or an Advanced GNVQ/GSVQ Level III. The status of engineering technician is obtained after a period of further training at work and upon gaining the membership of a professional engineering institution.

TASKS

- sets up apparatus and equipment and undertakes field and laboratory tests of soil and work materials;
- performs calculations and collects, records and interprets data;
- sets out construction site, supervises excavations and marks out position of building work to be undertaken;
- inspects construction materials and supervises work of contractors to ensure compliance with specifications and arranges remedial work as necessary.

RELATED JOB TITLES

Building technician
Civil engineering technician
Structural engineering technician

3115 QUALITY ASSURANCE TECHNICIANS

Quality assurance technicians perform a variety of technical inspections, testing and monitoring tasks to detect processing, manufacturing and other defects.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants typically possess GCSEs/S grades, a BTEC/SQA award or A levels/H grades. Training is typically received on-the-job, supplemented by training courses where instruction in specific techniques is required. Various industry specific NVQs/SVQs encompass aspects of quality control.

TASKS

- sets up scientific, electronic, or other technical equipment to perform functional and inspection tests;
- analyses and interprets the results of tests undertaken and writes up reports upon completion;
- supervises the work of routine inspection staff and notes any defects reported;
- assists quality control engineers in undertaking production audits;
- liaises with production engineers and staff to maintain the quality of output and to develop management quality systems.

4150 GENERAL OFFICE ASSISTANTS/CLERKS

2

Workers in this unit group are responsible for recording, filing and disseminating information for a business, organisation or individual.

3

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no minimum academic requirements, although entrants usually possess GCSEs/S grades. Training is usually provided on-the-job. NVQs/SVQs in Administration are available at Levels 2 and 3.

4

TASKS

5

- stores information by filling in forms, writing notes and filing records;
- types reports, memos, notes, minutes and other documents;
- receives and distributes incoming and outgoing correspondence;
- checks figures, prepares invoices and records details of financial transactions made.

GROUP 415

OCCUPATIONS: GENERAL

of clerical tasks and comprise people described in titles lacking specific details.

and into the following unit group:

UNIT GROUPS: CLERKS

SUB-MAJOR SECRETARIAL AND RECEPTION

Secretarial occupations perform general secretarial support of management and other workers.

MINOR GROUP SECRETARIAL AND RECEPTION

Workers in this minor group provide shorthand and print documents using typewriters, word processing and clerical and organisational duties in support of management and direct clients and visitors to commercial, industrial and service organisations.

Occupations in this minor group are classified as follows:

4211 MEDICAL SECRETARIES

4212 LEGAL SECRETARIES

4213 SCHOOL SECRETARIES

4214 COMPANY SECRETARIES

4215 PERSONAL ASSISTANTS AND

4216 RECEPTIONISTS

4217 TYPISTS

4211 MEDICAL SECRETARIES

Medical secretaries file and maintain medical and other records, transcribe notes and dictation into typewritten form and perform other routine clerical tasks in hospitals/surgeries and other medical establishments.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants require GCSEs/S grades or an Intermediate GNVQ/GSVQ Level II. To qualify as a medical secretary, entrants take a one-year full-time or two-year part-time diploma in medical secretarial studies. NVQs/SVQs in Administration are available at Levels 2, 3 and 4.

RELATED JOB TITLES

Doctor's secretary
Medical secretary

8

9

4212 LEGAL SECRETARIES

Legal secretaries file and maintain legal and other records, transcribe notes and dictation into typewritten form and perform other routine clerical tasks in legal practices.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic requirements, although employers may expect candidate to possess a legal secretarial qualification. Entrants to professional legal courses typically require GCSEs/S grades or equivalent qualifications. NVQs/SVQs in Administration are available at Levels 2, 3 and 4.

TASKS

- sorts and files correspondence;
- writes down dictated matter into shorthand and transcribes it into typewritten form;
- transcribes audio dictation into typewritten form;
- maintains court and clients' records and arranges appointments;
- answers enquiries and directs clients to appropriate experts;
- attends meetings and keeps records of proceedings.

RELATED JOB TITLES

Legal secretary
Litigation secretary

4213 SCHOOL SECRETARIES

School secretaries file and maintain school and other records, translate notes and dictation into typewritten form and perform other routine clerical tasks within schools.

TYPICAL ENTRY ROUTES AND ASSOCIATE QUALIFICATIONS

There are no minimum academic requirements, although entrants to professional secretarial courses

typically require GCSEs/S grades. NVQs/SVQs in Administration are available at Levels 2, 3 and 4.

TASKS

- sorts and files correspondence;
- writes down dictated matter into shorthand and transcribes it into typewritten form;
- transcribes audio dictation into typewritten form;
- maintains administrative files and records of attendance;
- handles enquiries from parents and arranges meetings with members of staff.

RELATED JOB TITLES

School clerk

School secretary

4214 COMPANY SECRETARIES

Company secretaries (excluding qualified chartered secretaries) file and maintain company records, translate notes and dictation into typewritten form and perform other routine clerical tasks within commercial organisations.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no minimum academic requirements, although entrants to professional secretarial courses typically require GCSEs/S grades. NVQs/SVQs in Administration are available at Levels 2, 3 and 4.

TASKS

- sorts, distributes and files correspondence;
- writes down dictated matter into shorthand and transcribes it into typewritten form;
- transcribes audio dictation into typewritten form;
- arranges meetings, circulates agenda and keeps records of proceedings;
- directs enquiries to appropriate members of staff.

RELATED JOB TITLES

Club secretary
Company secretary

4215 PERSONAL ASSISTANTS AND OTHER SECRETARIES

Workers in this unit group perform a variety of secretarial tasks for individuals or within organisations not elsewhere classified in MINOR GROUP 421: Secretarial and Related Occupations.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no minimum academic requirements, although entry to professional secretarial courses typically requires GCSEs/S grades. NVQs/SVQs are available in Administration at Levels 2, 3 and 4.

TASKS

- acts as a first point of contact for a manager with colleagues and people from outside organisations;
- arranges appointments, organises travel arrangements and makes reservations;
- maintains, sorts and files correspondence and other documentation;
- writes down dictated matter in shorthand and transcribes it into typewritten form;
- attends meetings and keeps records of proceedings;
- translates documents and liaises with overseas clients and suppliers.

RELATED JOB TITLES

Bilingual secretary
Farm secretary
Manager's personal assistant
Personal managerial assistant
Secretary

4216 RECEPTIONISTS

Receptionists receive and direct telephone calls and visitors to commercial, government and other establishments.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, although many employers expect entrants to possess GCSEs/S grades. There are a variety of relevant vocational qualifications available. NVQs/SVQs in Administration are available at Level 2 and encompass various aspects of reception work. Professional qualifications are also available.

TASKS

- receives callers and clients and directs them to the appropriate person or department;
- records the details of enquiries and makes appointments and reservations;
- deals with telephone enquiries;
- supplies brochures, pamphlets and other information for clients;
- records details of visitors, issues security passes and informs visitors of any actions to be taken in case of an emergency.

RELATED JOB TITLES

Doctor's receptionist
Receptionist
Secretary-receptionist

4217 TYPISTS

MAJOR C SKILLED TRADES

This major group covers occupations whose physical duties that normally require a degree of practical skills. The main tasks of these occupations require a good understanding of, the work situation, the materials, the structures, machinery and other items produced.

Most occupations in this major group have a long period of training, often provided by means of apprenticeship.

Occupations in this major group are classified into the following groups:

51 SKILLED AGRICULTURAL TRADES

511 AGRICULTURAL TRADES

52 SKILLED METAL AND ELECTRICAL TRADES

521 METAL FORMING, WELDING AND REPAIRING TRADES

522 METAL MACHINING, FITTING AND REPAIRING TRADES

523 VEHICLE TRADES

SUB-MAJOR
SKILLED AGRICULTURE

Skilled agricultural trades cultivate crops, raise and grow plants and trees for sale, tend gardens, orchards, and maintain areas of forestry.

MINOR GROUP
AGRICULTURE

Workers within agricultural trades cultivate crops, plants, trees, shrubs and flowers for sale, tend pitches and other recreational areas, and perform tasks related to agriculture and fishing.

Occupations in this minor group are classified as follows:

- 5111 FARMERS
- 5112 HORTICULTURAL TRADES
- 5113 GARDENERS AND GROUND
- 5119 AGRICULTURAL AND FISHING

5111 FARMERS

Farmers and related occupations cultivate arable crops, fruits and trees, and raise cattle, sheep, pigs, poultry and other livestock for consumption.

TYPICAL ENTRY ROUTES AND
ASSOCIATED QUALIFICATIONS

No formal academic qualifications are required. Training is typically received on-the-job. A variety of vocational qualifications in agriculture are available, including NVQs/SVQs at Levels 1 to 4.

TASKS

- feeds and waters animals, supervises births, treats minor ailments and calls vet if necessary;
- plants, propagates, sprays, fertilises and harvests field crops and horticultural produce;
- undertakes farm maintenance tasks such as fencing, hedging, cleaning and building maintenance;

GROUP 51 CULTURAL TRADES

raise animals and catch fish for consumption, parks, sports pitches and other recreational

GROUP 511 CULTURAL TRADES

grow and raise animals for consumption, grow and private and public gardens, parks, sports and perform a variety of other skilled occupations

divided into the following unit groups:

5111 FARMERS/AGRICULTURAL CONTRACTORS/SMEN/GROUNDSWOMEN MAINTAINING TRADES NEC

- operates and maintains farm machinery such as combine harvesters, straw balers, milking machines and tractors;
- arranges for the sale of crops, livestock and other farm produce;
- maintains records of production, finance and breeding.

RELATED JOB TITLES

Agricultural contractor
Farmer
Herd manager
Small holder

5112 HORTICULTURAL TRADES

Horticultural trades workers intensively cultivate vegetables, plants, fruit, shrubs, trees and flowers in greenhouses, market gardens, nurseries and orchards.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. NVQs/SVQs in Horticulture are available at Levels 1, 2 and 3. Professional qualifications from the Royal Horticultural Society are also available.

TASKS

- prepares soil in field, bed or pot by hand or machine;
- mixes soil, composts, fertilisers and/or organic matter and spreads fertiliser and manure;
- sows seeds and bulbs and transplants seedlings;
- propagates plants by taking cuttings and by grafting and budding, applies weed-killer, fungicide and insecticide to control pests and diseases;
- prunes and thins trees and shrubs;
- supports trees by staking and wiring.

RELATED JOB TITLES

Horticulturist (*market gardening*)
Market gardener
Nurseryman
Propagator

5113 GARDENERS AND GROUNDSMEN/ GROUNDSWOMEN

Gardeners and groundsmen/groundswomen cultivate flowers, trees, shrubs and other plants in public and private gardens, construct artificial features to improve the appearance of existing terrain, cut and lay turf and maintain areas for sports and recreation.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. NVQs/SVQs in Horticulture are available at Levels 1, 2 and 3, and in Sports Turf Management at Level 4. Professional qualifications are also available.

TASKS

- levels ground and installs drainage system as required;
- prepares soil and plants and transplants, prunes, weeds and otherwise tends plant life;
- protects plants from pests and diseases;
- cuts and lays turf using hand and machine tools and repairs damaged turf;
- moves soil to alter surface contour of land using mechanical equipment and constructs paths, rockeries, ponds and other features;
- rolls, mows and waters grass.

1

RELATED JOB TITLES

- Gardener
- Greenkeeper
- Groundsman/groundswoman
- Landscape gardener
- Turf cutter

2

3

5119 AGRICULTURAL AND FISHING TRADES NEC

4

Workers in this unit group perform a variety of agricultural and fishing occupations not elsewhere classified in MINOR GROUP 511: Agricultural Trades.

5

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No formal academic qualifications are required. Training is typically received on-the-job. A variety of vocational and academic qualifications in fish farming, forestry, horse and other animal care are available. Professional qualifications are also available and may be mandatory in some areas.

6

7

TASKS

- nets river fish and feeds and maintains them in spawning pens, cultivates and harvests oysters, mussels and clams on natural and artificial beds, treats water and diseased fish, and empties and cleans outdoor tanks;

8

9

1

- commands, navigates and maintains shipping vessels, assists with the shooting, hauling and repairing of nets, prepares, lays and empties baited pots, and guts, sorts and stows fish;
- establishes and maintains forest nurseries, forestry and woodland, and diagnoses and treats diseased trees;
- houses, feeds, exercises, trains and grooms horses and dogs in preparation for entry to shows and races;
- monitors and maintains the level of wildfowl on public and private estates.

SUB-MAJOR GROUP SKILLED METAL AND

Workers in this sub-major group shape and join metal and fixtures, set up and operate metal working plant and machinery, assemble parts in the manufacture of precision instruments, maintain and repair machinery industrial, domestic and commercial electrical

MINOR GROUP METAL FORMING, WELDING

Metal forming, welding and related trades workers erect, install, maintain and repair metal structures

Occupations in this minor group are classified as follows:

5211 SMITHS AND FORGE WORKERS

5212 MOULDERS, CORE MAKERS

5213 SHEET METAL WORKERS

5214 METAL PLATE WORKERS, SHEET METAL

5215 WELDING TRADES

5216 PIPE FITTERS

5211 SMITHS AND FORGE WORKERS

Smiths and forge workers operate or direct the operation of power hammers and presses to shape heated metal to requirements and to make and repair a variety of metal articles by heating, hammering and bending.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is usually via apprenticeships administered by professional associations and last up to four years. Apprenticeships incorporate technical training and practical experience and lead to recognised awards and membership of professional bodies.

GROUP 52 ELECTRICAL TRADES

in metal, erect and maintain metal structures
ing machinery, install and repair industrial
nufacture of metal goods, make and calibrate
motor vehicles, and install, test and repair
al/electronic equipment.

GROUP 521 FORGING AND RELATED TRADES

orkers shape, cast, finish and join metal, and
ures and fixtures.

d into the following unit groups:

BLACKSMITHS, SMITHS, DIE CASTERS

SHIPWRIGHTS, RIVETERS

TASKS

- heats or supervises the heating of metal to be forged in furnace;
- positions or directs the positioning of heated metal on anvil or other work surface;
- operates or directs operation of press or hammer and repositions workpiece between strokes;
- holds special forging tools against workpiece to shape and cut metal as required;
- bends or shapes metal by hand forging methods using hammers, punches, drifts and other hand tools;
- tempers and hardens forged pieces, as required, by quenching in oil or water;
- fits and secures horses shoes.

**5212 MOULDERS, CORE MAKERS,
DIE CASTERS**

Moulders, core makers and die casters make sand, loam and plaster moulds and cores for casting metal and pour or inject molten metal into dies by hand or machine.

**TYPICAL ENTRY ROUTES AND
ASSOCIATED QUALIFICATIONS**

Entrants typically possess GCSEs/S grades or have relevant practical experience. Training is by apprenticeship including practical experience and technical training. Modern Apprenticeships in Engineering Material Processing at NVQ/SVQ Level 3 are available.

TASKS

- positions moulding frame over pattern, fills it with sand, loam, or plaster and compacts by hand or machine;
- transfers mould unit to oven for baking or hardens by injecting carbon dioxide;
- separates mould from pattern and repairs damaged mould surfaces;
- applies refractory bonding solution to moulds and dies to prevent molten metal fusing with sand;
- fits cores in mould to form hollow parts in casting;
- prepares casting pit with vents to allow the escape of gases, scoops molten metal from furnace using ladle and pours it into die or die casting machine.

RELATED JOB TITLES

Coremaker (*metal trades*)
Die caster
Floor moulder
Moulder and coremaker (*foundry*)

5213 SHEET METAL WORKERS

Sheet metal workers mark out, cut, shape and join sheet metal using hand or machine tools, to make and repair sheet metal products and components (excluding vehicle bodywork).

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants typically possess GCSEs/S grades. Training is usually via apprenticeship including practical experience and technical training. Modern Apprenticeships in Engineering Materials Processing, Engineering Assembly and Engineering Construction are available at NVQ/SVQ Level 3.

TASKS

- examines drawings and specifications to assess job requirements;
- uses template, measuring instruments and tools to mark out layout lines and reference points;
- uses hand or machine tools to bend, roll, fold, press or beat cut sheet metal;
- assembles prepared parts and joins them by bolting, welding or soldering;
- finishes product by grinding, filing, cleaning and polishing;
- repairs damaged metal parts such as copper sheets and tubes by beating, riveting, soldering, welding and fitting replacement parts.

RELATED JOB TITLES

Coppersmith
Metal finisher
Panel beater (*metal trades*)
Sheet metal fabricator
Sheet metal worker

5214 METAL PLATE WORKERS, SHIPWRIGHTS, RIVETERS

Metal plate workers, shipwrights and riveters mark off, drill, shape, position, rivet and seal metal plates and girders to form structures and frameworks.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants typically possess GCSEs/S grades. Training is usually via apprenticeship including practical experience and technical training. Modern Apprenticeships in Engineering Materials Processing, Engineering Assembly and Engineering Construction are available at NVQ/SVQ Level 3.

TASKS

- examines drawings and specifications and uses rules, scribes and punches to mark out metal plate with guidelines and reference points;
- cuts metal plate to markings using hand or machine tools;
- uses machine tools to bend, curve, punch, drill and straighten metal plate as required;
- uses hydraulic jacks to position and align metal platework or frame for welding and bolting;
- selects suitable rivets and rivets together metal plates and girders;
- seals seams with caulking compound, smooths welds, fixes metal doors, metal collars, portholes, tank and hatch covers and performs other metal plate finishing tasks using a variety of hand and power tools.

RELATED JOB TITLES

Boilermaker
Caulker-burner
Plater-welder
Shipwright

5215 WELDING TRADES

Welding trades workers join metal parts by welding, brazing and soldering, and cut and remove defects from metal using a variety of equipment and techniques.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants typically possess GCSEs/S grades or an appropriate GNVQ/GSVQ. Training is typically by apprenticeship incorporating practical experience

and technical training. NVQs/SVQs are available at Levels 1, 2 and 3. Modern Apprenticeships are available at NVQ/SVQ Level 3. To gain employment, welders must pass a Welder Approval Test to demonstrate the required skills.

TASKS

- selects appropriate welding equipment such as electric arc, gas torch, etc.;
- connects wires to power supply, or hoses to oxygen, acetylene, argon, carbon dioxide, electric arc, or other source and adjusts controls to regulate gas pressure and rate of flow;
- guides electrode or torch along line of weld, burns away damaged areas, and melts brazing alloy or solder into joints;
- cleans and smoothes weld.

RELATED JOB TITLES

Arc welder
Electric welder
Fitter-welder
Solderer (*metal trades*)
Spot welder
Welder

5216 PIPE FITTERS

Workers in this unit group install and repair pipes in industrial and domestic premises.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, some employers may expect entrants to possess GCSEs/S grades. Training is usually via apprenticeship including practical experience and technical training. NVQs/SVQs in Mechanical Engineering Services (Plumbing) at Levels 2 and 3.

TASKS

- examines drawings and specifications to determine layout of piping;

1

- measures and cuts required lengths of copper, lead, steel, iron, aluminium or plastic piping using hand or machine tools;
- installs pipes for heating, ventilating, fire prevention, water and similar systems in domestic, commercial and industrial properties;
- fits piping into position and joins sections by welding, soldering, cementing, fusing, screwing or by other methods;
- tests pipe work for leaks and makes necessary adjustments.

MINOR GROUP 52 METAL MACHINING, FITTING AND INSTRUMENT MAKING

Metal machining, fitting and instrument making involves tool working, set up and operate lathes, boring machines, presses, assemble and repair machine tools, instruments, fit and assemble parts and sub-assemblies in to machines, calibrate, test and repair precision and optical instruments.

Occupations in this minor group are classified as follows:

5221 METAL MACHINING SETTING

5222 TOOL MAKERS, TOOL FITTING

**5223 METAL WORKING PRODUCT
FITTERS**

5224 PRECISION INSTRUMENT M

5221 METAL MACHINING SETTERS AND SETTER OPERATORS

Workers in this unit group operate machines to drill, bore, grind, cut, and mill or to otherwise shape metal workpieces.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic requirements although some employers may require GCSEs/S grades. Training is usually received on-the-job. NVQs/SVQs at Level 2 are available.

TASKS

- examines drawings and specifications to determine appropriate method, sequence of operations and machine setting;
- selects and fixes work-holding devices and appropriate cutting, shaping, grinding and/or forming tools;
- sets machine controls for rotation speeds, depth of cut and stroke, and adjusts machine table, stops and guides;

GROUP 522

MACHINING AND INSTRUMENT

TRADES

Machining trades workers mark out metal for machine turning, drilling, grinding, milling machines and install and repair plant and industrial machinery, and the manufacture of metal products and make, repair and overhaul instruments.

Divided into the following unit groups:

UNIT GROUPS 1

TURNERS AND SETTER-OPERATORS

UNIT GROUPS 2

TURNERS AND MARKERS-OUT

UNIT GROUPS 3

TURNERS AND MAINTENANCE

UNIT GROUPS 4

TURNERS AND REPAIRERS

- operates automatic or manual controls to feed tool to workpiece or vice versa and checks accuracy of machining;
- repositions workpiece, changes tools and resets machine as necessary during production run;
- instructs operators on the safe and correct method of operation of the machine.

RELATED JOB TITLES

Centre lathe turner
Machine setter (*metal trades*)
Machine tool setter
Setter (*metal trades*)
Setter-operator (*metal trades*)
Tool setter-operator

5222 TOOL MAKERS, TOOL

FITTERS AND MARKERS-OUT

Tool makers, tool fitters and markers-out mark out metal for machining and fit, assemble and repair machine and press tools, dies, jigs, fixtures and other tools.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic requirements although some employers may require GCSEs/S grades. Training is usually received on-the-job. NVQs/SVQs at Level 2 are available.

TASKS

- examines drawings and specifications to determine appropriate method and sequence of operations;
- marks out reference points using measuring instruments and tools such as punches, rules and squares;
- operates hand and machine tools to shape workpieces to specifications and checks accuracy of machining;
- assembles prepared parts, checks their alignment with micrometers, optical projectors and other measuring equipment and adjusts as necessary;
- repairs damaged or worn tools.

RELATED JOB TITLES

Die sinker (*metal trades*)
Jig and tool fitter
Marker-off (*engineering*)
Tool maker (*metal trades*)
Tool room fitter

5223 METAL WORKING PRODUCTION AND MAINTENANCE FITTERS

Metal working production and maintenance fitters erect, install and repair electrical and mechanical plant and industrial machinery, fit and assemble parts and sub-assemblies in the manufacture of metal products and test and adjust new motor vehicles and engines.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants usually possess GCSEs/S grades, a GNVQ/GSVQ or a BTEC/SQA award. Modern Apprenticeships in Engineering Maintenance at

NVQ/SVQ Level 3 are available. NVQs/SVQs in Aircraft Engineering Maintenance are available at Level 3. Further professional qualifications are required to become a licensed aircraft engineer.

TASKS

- examines drawings and specifications to determine appropriate methods and sequence of operations;
- fits and assembles parts and/or metal sub-assemblies to fine tolerances to make aircraft and marine engines, prototype metal products, agricultural machinery and machine tools;
- fits and assembles, other than to fine tolerances, prepared parts and sub-assemblies to make motor vehicles, printing and agricultural machinery, orthopaedic appliances and other metal goods;
- examines operation of, and makes adjustments to, internal combustion and jet engines and motor vehicles;
- erects, installs, repairs and services plant and industrial machinery, including railway stock, textile machines, aircraft frames and engines, coin operated machines, locks, sewing machines, bicycles and gas and oil appliances.

RELATED JOB TITLES

Aircraft engineer
Aircraft fitter
Aircraft ground engineer
Bench fitter
Engineering fitter
Fitter and turner
Machine fitter
Maintenance fitter

Millwright
Plant fitter

5224 PRECISION INSTRUMENT MAKERS AND REPAIRERS

Precision instrument makers and repairers make, calibrate, test and repair precision and optical instruments such as barometers, compasses, cameras, calibrators, watches, clocks and chronometers.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Some GCSEs/S grades qualifications may be required. Training is usually via an apprenticeship including work experience and practical and technical training leading to recognised awards.

TASKS

- examines drawings or specifications to determine appropriate methods, materials and sequence of operation;
- marks out and machines aluminium, brass, steel and plastics using machine tools such as grinders, lathes and shapers;
- tests watches and clocks for repair to diagnose faults and removes, repairs or replaces damaged and worn parts;
- tests completed timepiece for accuracy using electronic or other test equipment;
- carries out service tasks such as cleaning, oiling and regulating;
- checks prepared parts for accuracy using measuring equipment, assembles parts and adjusts as necessary using hand and machine tools;
- positions, aligns and secures optical lenses in mounts;
- tests, adjusts and repairs precision and optical instruments.

9

- may drive to site of breakdown and visually check, test drives or uses test equipment to diagnose engine and mechanical faults;
- removes, dismantles and checks the appropriate parts, systems or entire engine;
- repairs and replaces defective parts;
- prepares new parts using hand and machine tools;
- reassembles, tests, adjusts and tunes the appropriate parts, systems or entire engine;

GROUP 523

TRADES

maintain the bodies, engines, parts, sub- and exterior surfaces of vehicles.

divided into the following unit groups:

5230 ENGINEERS AND REPAIRERS

5

- carries out routine maintenance checks on oil and air filters, brakes and other vehicle parts/systems.

RELATED JOB TITLES

Car mechanic
Diesel fitter
Garage mechanic
Motor fitter
Motor mechanic
Motor vehicle technician
Motorcycle mechanic
Vehicle mechanic
Vehicle patrolman/woman

5232 VEHICLE BODY BUILDERS AND REPAIRERS

Workers in this unit group construct and repair the bodies of road vehicles, railway coaches and aircraft, and fit interior and exterior fittings to vehicle bodies.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements although some employers may require GCSEs/S grades or an equivalent qualification. Off- and on-the-job training is provided. NVQs/SVQs at Levels 2 and 3 are available. Modern Apprenticeships at NVQ/SVQ Level 3 are also available and take between three to four years to complete.

TASKS

- diagnoses job requirements or ascertains work specifications from drawings or instructions;
- selects, cuts, shapes and assembles materials to form parts of vehicle underframe, framework and body;
- repairs damage to chassis and engine mountings using hydraulic rams, jacks and jigs;
- hammers out dents in bodywork, fills in small depressions or corroded areas in solder, plastic or other filler compound and replaces body panels using hand and power tools;
- installs and repairs interior fittings including seats, seatbelts and fascia in cars, sinks and special features in caravans, mobile shops and bulkheads in aircraft;
- positions, secures and repairs external fittings including windows, doors, door handles, catches and roof attachments.

RELATED JOB TITLES

Body builder (vehicles)
Body maker (vehicles)
Coach builder
Coach finisher
Panel beater (*vehicle repair*)
Vehicle body repairer
Vehicle builder

5233 AUTO ELECTRICIANS

Auto electricians repair and service the electrical/electronic circuitry and components of cars, lorries, buses, motorcycles and other motor vehicles.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements although some employers may require GCSEs/S grades or an equivalent qualification. Off- and on-the-job training is provided. NVQs/SVQs at Levels 2 and 3 are available. Modern Apprenticeships at NVQ/SVQ Level 3 are also available and take between three to four years to complete.

TASKS

- uses portable and bench test equipment to diagnose faults in electrical/electronic circuitry;
- removes faulty components and fits replacements using hand tools and by simple brazing/soldering;
- makes new parts using hand and machine tools;
- checks condition of electrical/electronic systems and carries out servicing tasks;
- installs additional electrical amenities such as radio/cassette players, aerials and radio suppressers.

MINOR GROUP ELECTRICIANS

Workers in electrical trades install wiring in rooms, buildings, and vehicles. They install, maintain, test and repair electrical and electronic equipment. They are concerned with lighting, signalling, telecommunications, and other commercial, industrial and domestic wiring.

Occupations in this minor group are classified as follows:

5241 ELECTRICIANS, ELECTRICIANS

5242 TELECOMMUNICATIONS ENGINEERS

5243 POWER LINES REPAIRERS AND CABLE

5244 TV, VIDEO AND AUDIO ENGINEERS

5245 COMPUTER ENGINEERS, IN

5249 ELECTRICAL/ELECTRONIC

5241 ELECTRICIANS, ELECTRICAL FITTERS

Electricians and electrical fitters assemble parts in the manufacture of electrical and electronic equipment, and install, maintain, and repair electrical plant, machinery, appliances and wiring.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Academic qualifications may not be required, though some GCSEs/S grades or an equivalent qualification may be an advantage. NVQs/SVQs in Servicing Electronic Systems are available at Levels 1, 2 and 3. Modern Apprenticeships combining practical work experience and technical training are available at Levels 2 and 3. Entrants must have good eyesight and normal colour vision.

TASKS

- examines drawings, specifications and wiring diagrams to determine the method and sequence of operations;
- selects, cuts and lays wires and connects to sockets, plugs or terminals by crimping, soldering, brazing or bolting;

GROUP 524 ELECTRICAL TRADES

road and rail vehicles and aircraft and assemble, install and repair electronic equipment, components and systems for communications, radio and television, computing and electronic functions.

Divided into the following unit groups:

ELECTRICAL FITTERS

TELECOMMUNICATIONS ENGINEERS

WIRELESS JOINTERS

TELECOMMUNICATIONS ENGINEERS

TELECOMMUNICATIONS INSTALLATION AND MAINTENANCE

TELECOMMUNICATIONS ENGINEERS NEC

- cuts, bends and installs electrical conduit;
- assembles parts and sub-assemblies using hand tools and by brazing, riveting or welding;
- installs electrical plant, machinery and other electrical fixtures and appliances such as fuse boxes, generators, light sockets etc.;
- examines electrical plant or machinery, domestic appliances and other electrical assembly for faults using test equipment and replaces worn parts and faulty wiring.

RELATED JOB TITLES

Telephone installation engineer
Telephone technician

5243 LINES REPAIRERS AND CABLE JOINTERS

Lines repairers and cable jointers install, maintain, test and repair overhead, underground, surface and submarine electricity and telecommunications cables.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically received on-the-job. NVQs/SVQs are available at Levels 2 and 3.

TASKS

- assists with the erection of wood poles or steel towers to carry overhead lines;
- removes protective sheath from cables, joins conductor wires by brazing, soldering or crimping and applies conductor insulation and protective coverings;
- connects and installs transformers, fuse gear, lightning arrestors, aircraft warning lights, cable boxes and other equipment;
- connects cables to test equipment and tests for balance, resistance, insulation and any defects;
- locates and repairs faults to lines and ancillary equipment.

RELATED JOB TITLES

Cable jointer

Cable repairer (electric)

Overhead linesman

5244 TV, VIDEO AND AUDIO ENGINEERS

TV, video and audio engineers service and repair domestic television, video and audio appliances.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entrants typically possess GCSEs/S grades or an equivalent qualification such as an Intermediate GNVQ/GSVQ Level II. Training is provided on- and off-the-job and may be supplemented by short courses delivered by manufacturers. NVQs/SVQs in Domestic Appliance Engineering are available at Level 3.

TASKS

- examines equipment and observes reception to determine nature of defect;
- uses electronic testing equipment to diagnose faults and check voltages and resistance;

- dismantles equipment and repairs or replaces faulty components or wiring;
- re-assembles equipment, tests for correct functioning and makes any necessary further adjustments;
- carries out service tasks such as cleaning and insulation testing according to schedule.

RELATED JOB TITLES

Radio and television engineer
 Service engineer (radio and television)
 Television engineer
 Television service engineer
 Video engineer (service and repair)

5245 COMPUTER ENGINEERS, INSTALLATION AND MAINTENANCE

Computer engineers install, maintain and repair personal computers, mainframe and other computer hardware.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

Entry is possible with a variety of academic qualifications and/or relevant experience. Entrants typically possess GCSEs/S grades and A levels/H grades, BTEC/SQA awards, an Advanced GNVQ/GSVQ Level III or a degree. Training is usually provided on-the-job supplemented by specialised courses. Postgraduate and professional qualifications, and NVQs/SVQs at Levels 2 and 3 are available.

TASKS

- maintains documentation to track and log system components and identify system upgrades, enhancements and conversions of infrastructure;
- examines drawings, specifications and wiring diagrams to determine appropriate method and sequence of operations;
- installs and maintains hardware incorporating PCs and mainframe, and installs optical fibre, copper cable and other appropriate links;

- places prepared parts and sub-assemblies in position, checks alignment and secures with hand tools;
- carries out preventative servicing tasks, monitors the operation of computer equipment, and advises on hardware requirements and acquisition.

SUB-MAJOR SKILLED CONSTRUCTION

Skilled construction and building trades lay and fix roofs, and repair roofs, install heating, plumbing and other fixtures, and apply coverings and decorations.

MINOR GROUP CONSTRUCTION

Workers within construction trades erect and fix roofs, cut, shape and lay stone, brick and similar materials, maintain and repair plumbing, heating and ventilation systems, fit frameworks and fittings, fit glass into windows and doors, and perform other construction tasks.

Occupations in this minor group are classified as follows:

5311 STEEL ERECTORS

5312 BRICKLAYERS, MASONS

5313 ROOFERS, ROOF TILERS AND SLATERS

5314 PLUMBERS, HEATING AND VENTILATION ENGINEERS

5315 CARPENTERS AND JOINERS

5316 GLAZIERS, WINDOW FABRICATORS

5319 CONSTRUCTION TRADES NOT ELSEWHERE CLASSIFIED

5311 STEEL ERECTORS

Steel erectors fit and erect structural metal framework for buildings and other structures such as chimneys.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, though GCSEs/S grades are advantageous. Entry is typically through a Modern Apprenticeship or National Traineeship approved by the Construction Industry Training Board leading to an NVQ/SVQ in General Construction at Level 3.

GROUP 53

CONSTRUCTION AND BUILDING TRADES

work with stone, brick and similar materials, construct and install heating and ventilating systems, fit windows, doors and other openings, and apply protective material to walls, floors and ceilings.

GROUP 531

CONSTRUCTION TRADES

fit metal framework for building construction, install roof and wall materials, cover roofs and exterior walls, install heating and ventilating systems, construct and install wooden floors, doors and windows, and perform other miscellaneous construction tasks.

Divided into the following unit groups:

UNIT GROUPS

5311 CARPENTERS AND SLATERS

5312 ROOFING AND VENTILATING ENGINEERS

5313 JOINERS

5314 SIGN AND LETTER INDICATORS AND FITTERS

5315 WOODWORKING MACHINE OPERATORS

TASKS

- examines drawings and specifications to assess job requirements;
- erects ladders, scaffolding or working cage;
- directs hoisting and positioning of girders and other metal parts and checks alignment;
- arranges for or undertakes bolting and welding of metal parts;
- checks alignment of metal parts using spirit level and plumb-rule.

**8114 CHEMICAL AND RELATED
PROCESS OPERATIVES**

Workers in this unit group operate plant and machinery in the processing of chemical and related materials by chemical, heat or other treatment, manufacture synthetic materials and bleach, dye or otherwise treat textiles, and treat hides, skins and pelts for making into fur, leather and skin products.

**TYPICAL ENTRY ROUTES AND
ASSOCIATED QUALIFICATIONS**

There are no formal academic entry requirements, although some employers require entrants to possess GCSEs/S grades. Training is typically received on-the-job, supplemented by specialised training courses. NVQs/SVQs in Process Operations are available at Levels 1, 2 and 3.

TASKS

- loads prescribed quantities of ingredients into plant equipment, starts operational cycle, monitors instruments and gauges indicating conditions affecting the operation of the plant and adjusts controls as necessary;
- prepares dye, bleaching, water repellent, fixing salt and other chemical solutions to finish and treat textiles;
- regulates input of polymer into melting unit, extrudes polymer, gathers extruded filaments and feeds strands through rolling, cutting and treatment units to produce synthetic fibre;
- operates kilns, furnaces and ovens to produce charcoal, coke and other carbon products;
- operates machines to coat film and tape with sensitising material and otherwise impregnate materials by immersion, split and mould mica and produce asbestos pipes and sheets;
- cuts and trims skins, hides and pelts, removes wool, hair, flesh and other waste material, and washes, limes, tans, dyes and otherwise treats hides for making into leather, skin and fur products;
- withdraws samples for quality control testing, removes and regulates discharge of batch material upon completion of processing.

RELATED JOB TITLES

Colour mixer

Dye house operative (*textile mfr*)

Nylon spinner

Paint maker

Process worker (*chemical mfr*)

8115 RUBBER PROCESS OPERATIVES

Workers in this unit group attend and operate masticating, calendering, mixing, forming, shaping, moulding, extruding, cutting, trimming and winding machines to make and repair rubber products.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, although some employers require entrants to possess GCSEs/S grades. Training is typically on-the-job, supplemented by specialised training courses. NVQs/SVQs in Processing Rubber are available at Levels 1 and 2.

TASKS

- ascertains ingredients and mixing requirements, feeds machine or regulates flow from feed conveyors and hoppers;
- regulates speed, temperature and pressure of masticating, mixing, extruding and vacuum moulding machinery;
- operates winding machinery to form endless belts and builds up rubberised material to form industrial belting and pneumatic tyres;
- prepares surfaces and coats or lines metal or other products with rubber;
- trims, sandblasts, or manipulates rubber article against abrasive wheel to finish product;
- locates defects and repairs worn and faulty sheathing, belting and rubber and pneumatic tyres.

RELATED JOB TITLES

Curer (rubber)
Rubber moulder (moulds)
Rubber worker
Tyre maker
Vulcaniser

8116 PLASTICS PROCESS OPERATIVES

Workers in this unit group attend and operate moulding, extruding, thermoforming, calendering, covering, cutting and other process equipment to make and repair plastic products.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job, supplemented by specialised courses. NVQs/SVQs in Plastic Processing Operations are available at Levels 1 and 2. Modern Apprenticeships in Polymer Processing leading to an NVQ/SVQ at Level 3 are available.

TASKS

- prepares machine for operation by affixing any necessary attachments;
- weighs and mixes ingredients, loads machine with plastic to be worked or regulates flow from feed conveyor or hopper;
- monitors controls regulating temperature, pressure, etc. and operates moulding, extruding, calendering, thermoforming and covering machines;
- inspects plastic products for defects, takes measurements and repairs plastic belting and sheathing;
- trims, cuts and performs other finishing operations on plastic using hand and machine tools;
- makes artificial eyes and contact lens discs, and makes and repairs spectacle frames and plastic parts of artificial limbs and other orthopaedic appliances.

RELATED JOB TITLES

Extruder operator (*plastics mfr*)
 Fabricator (*plastics mfr*)
 Fibreglass laminator
 Injection moulder (*plastics goods mfr*)
 Plastic moulder

8117 METAL MAKING AND TREATING PROCESS OPERATIVES

Metal making and treating process operatives operate furnaces, ovens and other heating vessels, drawing, rolling, extruding, galvanising, forging and other metal processing equipment to smelt, shape and treat metal and metal products.

1

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job. NVQs/SVQs in Steel Making, Steel Refining, Steel Casting and Metal Forging are available at Levels 2 and 3.

2

TASKS

3

- charges furnace, operates controls to regulate furnace temperature, and adds oxidising, alloying and fluxing agents as required;

4

- withdraws samples of molten metal for analysis, taps slag from surface of molten metal and directs flow of molten metal into casts;

5

- sets rolling speed, tension and space between rolls, guides the metal to and from rollers, and monitors the rolling process to detect irregularities, and ensure that the gauge and finish match required specifications;

6

- operates equipment to remove dirt, scale and other surface impurities by immersion in chemical solution;

7

- heats metal or metal articles in furnace, allows to cool for a specified time or quenches in brine, oil or water to harden, reduces brittleness and restores ductility;

- operates piercing, extruding, galvanising, pressing and other metal processing equipment to shape and treat metal or metal articles.

8

RELATED JOB TITLES

Annealer

Furnaceman (*metal trades*)

Heat treatment operator (metal)

9

Jigger (*metal trades*)
Rolling mill operator
Wire drawer

8118 ELECTROPLATERS

Electroplaters operate continuous plant to coat metal parts and articles electrolytically, form metal articles by electro- and vacuum-deposition, dip and spray articles with another metal, plastic powder or other material and treat articles chemically to produce desired surface finishes.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job. NVQs/SVQs in Product Coating are available at Levels 2 and 3.

TASKS

- cleans and rinses article or preshaped former to be coated;
- masks area not to be covered with wax, resistant adhesive tape or other material;
- fits appropriate nozzle on spray gun, loads spray gun with appropriate coating material and prepares electrolytic solutions;
- sets machine, plant, or equipment controls to regulate electric current and temperature of molten zinc, tin, chromium, copper or other non-ferrous metal;
- immerses articles in plating solutions or sprays article until required thickness of coating has been deposited;
- removes article from solution and centrifuges, if necessary, to remove excess molten metal before cooling.

RELATED JOB TITLES

Anodiser
Electroplater
Galvaniser

8119 PROCESS OPERATIVES NEC

Workers in this unit group perform a variety of processing occupations not elsewhere classified in MINOR GROUP 811: Process Operatives.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, though some employers may expect entrants to possess GCSEs/S grades. Training is typically provided on-the-job, supplemented by specialist training courses. NVQs/SVQs in Process Operations are available at Levels 1, 2 and 3.

TASKS

- packs products ready for kilnsetting;
- operates kilns, furnaces and ovens to produce cement clinker, linoleum cement and asphalt, to fire abrasive and carbon products and otherwise cook and heat treat materials and products not elsewhere classified;
- operates machines to mix, blend, crush, wash and separate seeds and other materials not elsewhere classified;
- operates machines to produce flat and corrugated asbestos cement pipes and sheets;
- performs other processing tasks not elsewhere classified.

**MINOR GROUP 8
PLANT AND MACHINE OPERATIVES**

Workers in this minor group operate plant and machinery to produce related products, operate drilling and excavation equipment, extract minerals, attend and operate boilers, compressors, power generation equipment, operate machines for the production of and attend water purifying, sedimentation and filtration and miscellaneous operative tasks.

Occupations in this minor group are classified as follows:

- 8121 PAPER AND WOOD MACHINE OPERATIVES**
- 8122 COAL MINE OPERATIVES**
- 8123 QUARRY WORKERS AND RELATED OPERATIVES**
- 8124 ENERGY PLANT OPERATIVES**
- 8125 METAL WORKING MACHINERY OPERATIVES**
- 8126 WATER AND SEWERAGE PLANT OPERATIVES**
- 8129 PLANT AND MACHINE OPERATIVES**

8121 PAPER AND WOOD MACHINE OPERATIVES

Paper and wood machine operatives operate machines to produce, treat and cut wood, paper, paperboard, leatherboard, plasterboard and similar material, assemble and make wooden crates and containers.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job. NVQs/SVQs in Paper and Board Making and in Leather Production are available at Level 2. NVQs/SVQs in Woodmachining are available at Levels 2 and 3.

TASKS

- cuts and shapes wood using hand and power tools, assembles parts of wooden crates, barrels and other wooden containers using nails, bolts

GROUP 812

and staples, and fits metal strips and corner pieces
to strengthen container as required;

- examines job requirements, ascertains necessary ingredients and loads machines to beat, mix and crush wood, cork and pulp for further processing;
- attends and operates ovens, kilns, milling, filtering, straining, calendering, coating, drying, finishing, winding and other machines to produce and/or treat wood, paper, paperboard, leatherboard and plasterboard;
- sets and adjusts edge guides, stops and blades of cutting machine, threads material through rollers or loads into machine hopper, starts and monitors operation of machine, removes completed work and clears machine of waste material.

RELATED JOB TITLES

Case maker
Guillotine operator (*paper goods mfr*)
Sawyer (wood)
Wood machinist

8122 COAL MINE OPERATIVES

Coal mine operatives detonate charges and use cutting equipment to extract coal from coal faces, build and dismantle roof and wall supports in underground coal workings, and transport coal and other material from the coal face.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is provided through specialised courses. NVQs/SVQs in Process Operations (Extraction Industries) are available. There is a minimum age limit of 18 years for underground work.

TASKS

- uses machine or portable drill to drill holes to required depth for blasting, bursting, release of gas or water infusion;
- inserts and compacts appropriate explosive, primer and detonator in drilling hole and detonates charge to break and loosen coal and rock from solid formations;
- operates heading, ripping and coal cutting-loading machines to remove material from working face, and monitors conveyor carrying away loose material;
- cleans machinery, equipment and tools, and maintains refuge holes, roads and airways;
- erects permanent and temporary wall and roof supports from dry stone material, timber and metal, withdraws supports and serviceable material/equipment from worked out or abandoned faces;
- stows waste in area from which coal has been removed using feed hopper or stowing machine;
- conveys goods and materials to and from coal face and work areas, loads and unloads mine cars and transfers materials from underground and surface conveyors to bunkers, tubs and rail trucks.

RELATED JOB TITLES

Coal miner

Miner (*coal mine*)

Power loader (*coal mine*)
Underground worker

8123 QUARRY WORKERS AND RELATED OPERATIVES

Quarry workers erect supports in underground workings, set and detonate explosives to loosen rocks, and set up and operate drilling equipment to extract minerals (other than coal) from the ground, and operate machinery to wash, crush or separate coal, stone and ores.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job. NVQs/SVQs in Drilling Operations and Process Operations (Extractive Industries) are available at Level 2. There is a lower age limit of 18 for underground work.

TASKS

- inspects blasting area, drills shot holes, inserts explosives and detonates charges to loosen large pieces of rock/ore;
- assembles drilling and cutting tools, operates controls to start machines and to regulate the speed and pressure of cutting and drilling;
- erects timber or metal supports to shore up tunnel and assists tunnel miner with the excavation of vertical shafts and underground tunnels;
- conveys goods and materials to and from the workplace, loads and unloads mine cars and transfers materials from underground and surface conveyors to bunkers, tubs and rail trucks;
- operates agitators/vibrators to separate minerals and ensures that screened, filtered, crushed and separated material is discharged to appropriate chutes or conveyors;
- performs other mining and quarrying tasks not elsewhere classified including digging clay from open pits, operating high-pressure hoses to wash china clay from open pit faces and otherwise assisting miners.

8124 ENERGY PLANT OPERATIVES

Workers in this unit group operate boilers to produce hot water or steam and attend and operate compressors, turbines, electrical substations, switchboards and auxiliary plant and machinery to fuel nuclear reactors, drive blowers and pumps, electricity generators and other equipment.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically by apprenticeship, incorporating technical training and practical experience. NVQs/SVQs in Maintaining Electricity Generating Systems are available at Levels 2 and 3.

TASKS

- determines job requirements from switchboard attendant or operating instructions;
- opens valves and operates controls to regulate the flow of fuel to boiler or generating equipment;
- operates remote control panel to load fuel and remove discharged fuel elements from nuclear reactors;
- adjusts controls to maintain correct running speed of turbine or generator and monitors temperature and pressure controls on boilers;
- records instrument readings periodically and shuts down turbine/generator or boiler as demand decreases;
- carries out minor maintenance tasks and prescribed tests and reports any faults.

RELATED JOB TITLES

Auxiliary plant attendant
Boiler attendant

Boiler operator
Stoker
Substation attendant (*electricity supplier*)
Unit operator

8125 METAL WORKING MACHINE OPERATIVES

Metal working machine operatives operate machines to cut, shape, abrade and otherwise machine metal, use hand and power tools to remove surplus metal and rough surfaces from castings, forgings or other metal parts, and clean, smooth and polish metal workpieces.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically received on-the-job. NVQs/SVQs in Engineering Machining are available at Level 1.

TASKS

- secures workpiece in drilling, boring, milling, planing, grinding, lapping, honing, electrochemical, or other shaping machines, or loads metal stock on to press;
- sets controls, starts machine and operates controls to feed tool to workpiece or vice versa and repositions workpiece during machining as required;
- withdraws workpiece and examines accuracy using measuring instruments;
- operates burning, chipping and grinding equipment to remove defects from metal parts, and files, chisels, burns and saws off surplus metal;
- smoothes rough surfaces with hand tools, abrasive belts and wheels, compressed air, jets of vapour, or blasting with shot, grit, sand or other abrasive material;
- selects and secures polishing head to machine tool, prepares head with emery, grease or other substance, sets speed and angle of polishing head, and operates controls to feed polishing head to workpiece or vice versa.

RELATED JOB TITLES

Fettler (*metal trades*)

Grinding machinist (*metal trades*)

Metal polisher

Press operator (*metal trades*)

Shot blaster

Tool room machinist

8126 WATER AND SEWERAGE PLANT OPERATIVES

Water and sewerage plant operatives operate valves to control water supplies in mains and pipelines, attend screening, filtering, water purifying and sedimentation plant, clear any blockages and patrol and maintain sewerage systems.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is provided off- and on-the-job. NVQs/SVQs in Operating Process Plant are available at Level 2.

TASKS

- attends water filtration and purification plant, monitors chemical treatment, regulates treatment of water supply within strict guidelines;
- opens and closes valves to regulate quantity and pressure of water and reports defective valves or abnormal water pressure;
- stops water supply in an emergency and informs consumers likely to be affected;
- regulates flow of raw sewage into screening plant, releases screened sewage and regulates its flow into detritus pits, sedimentation tanks and filtration beds;
- cleans out screen compartments, sedimentation tanks and filtration beds manually or using mechanical scraper;
- patrols sections of sewer, examines for any blockages or gas releases and clears blockages by flushing or by using boring rods;

- digs trench and assists pipelayers to lay, renew or repair sewerage pipes.

RELATED JOB TITLES

Filter attendant (*water works*)
Plant operator (*sewage/water works*)
Sewerman
Turncock
Water treatment plant operator

MINOR GROUP 81 ASSEMBLERS AND ROUTINE OPERATIVES

Assemblers and routine operatives perform the assembly of electrical and electronic equipment, assembly of prepared parts in the manufacture of electrical and electronic goods, inspect, test, sort, weigh and pack electrical and electronic goods, repair tyres, exhausts and windscreens on motor vehicles, garment making, sew and embroider garments and accessories, cut and assemble materials and perform a variety of other tasks not classified.

Occupations in this minor group are classified as follows:

8131 ASSEMBLERS (ELECTRICAL AND ELECTRONIC EQUIPMENT)

8132 ASSEMBLERS (VEHICLES AND MOTOR VEHICLES)

8133 ROUTINE INSPECTORS AND TESTERS

8134 WEIGHERS, GRADERS, SORTERS AND PACKERS

8135 TYRE, EXHAUST AND WINDSCREEN REPAIRERS

8136 CLOTHING CUTTERS

8137 SEWING MACHINISTS

8138 ROUTINE LABORATORY TECHNICIANS

8139 ASSEMBLERS AND ROUTINE OPERATIVES

8131 ASSEMBLERS (ELECTRICAL AND ELECTRONIC EQUIPMENT)

Workers in this unit group wire up prepared parts and/or sub-assemblies in the manufacture of electrical and electronic equipment, make coils and wiring harnesses and assemble previously prepared parts in the batch or mass production of electrical and electronic goods and components.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job, supplemented by short courses. NVQs/SVQs in Electronic Product Assembly are available at Level 1.

TASKS

- examines drawings, specifications and wiring diagrams to identify appropriate materials and sequence of operations;

GROUP 813

ROUTINE OPERATIVES

perform routine tasks in the wiring of electrical equipment, the manufacture of vehicles, electrical, metal and plastic products, parts and materials, fit and assemble motor vehicles, mark out and cut material for components, perform routine laboratory tests of products and perform routine assembly operations not elsewhere classified.

Divided into the following unit groups:

UNIT GROUP 1 (ELECTRICAL PRODUCTS)

UNIT GROUP 2 (ELECTRICAL AND METAL GOODS)

UNIT GROUP 3 (ELECTRICAL TESTERS)

UNIT GROUP 4 (ELECTRICAL TESTERS)

UNIT GROUP 5 (ELECTRICAL TESTERS)

UNIT GROUP 6 (ELECTRICAL TESTERS)

UNIT GROUP 7 (ELECTRICAL TESTERS)

UNIT GROUP 8 (ELECTRICAL TESTERS)

- selects, cuts and connects wire to appropriate terminals by crimping or soldering;
- positions and secures switches, transformers, tags, valve holders or other parts and connects capacitors, resistors, transistors or sub-assemblies to appropriate terminals by soldering;
- lays out and secures wire to make harnesses and operates machine to wind heavy and light coils of wire or copper for transformers, armatures, rotors, stators and light electrical equipment;
- assembles previously prepared electrical or electronic components by winding, bolting, screwing or otherwise fastening using an assembly machine or hand tools.

RELATED JOB TITLES

Armature winder

Assembler (*electrical, electronic equipment*)

Coil winder

Wireman/woman

8132 ASSEMBLERS (VEHICLES AND METAL GOODS)

Workers in this unit group undertake the routine assembly of vehicles and other metal goods or components such as frames, axles, wire brushes and wheels.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No academic qualifications are required. In some cases candidates must take aptitude and dexterity tests. Normal colour vision is required for some jobs. Training varies according to the complexity of the work.

TASKS

- follows instructions and drawings and positions components on work bench or in assembly machine;
- assembles prepared components in sequence by soldering, bolting, fastening, spot-welding, screwing and hammering using power and hand tools or assembly machine;
- rejects faulty assembly components;
- inspects finished article for faults, monitors assembly machine operation and reports any faults.

RELATED JOB TITLES

Assembler (*metal trades*)
Car assembler
Lineworker (*vehicle mfr*)

8133 ROUTINE INSPECTORS AND TESTERS

Workers in this unit group inspect and/or test metal stock, parts and products, electrical plant, machinery and electronic components, systems and sub-assemblies, textiles, wood, paper, food, plastics and rubber goods, parts and materials to detect processing, manufacturing and other defects.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, although some employers require candidates to possess GCSEs/S grades. Training is typically received on-the-job, supplemented by training courses where instruction in specific techniques is required. Various NVQs/SVQs encompass aspects of quality control.

TASKS

- examines articles for surface flaws such as cracks, dents, defective sealing or broken wires by visual inspection or using aids such as microscopes or magnifying glasses;
- checks sequence of assembly operations and checks assemblies and sub-assemblies against parts lists to detect missing items;
- sets up test equipment, connects items/system to power source/pressure outlet, etc. and operates controls to check performance and operation of electrical plant and machinery and electronics systems;
- examines yarn packages, textile fabrics and garments, wood or wood products, paper and paperboard, plastics and rubber materials, food products, food storage containers, etc., checks specifications, marks any repairable defects and rejects faulty items;
- reports any recurrent or major defects and recommends improvements to production methods.

RELATED JOB TITLES

Engineering inspector

Examiner (*manufacturing*)

Passer (*manufacturing*)

Quality control inspector (*manufacturing*)

Test engineer

Viewer (*electrical goods mfr*)

8134 WEIGHERS, GRADERS, SORTERS

Workers in this unit group weigh, grade and sort materials, goods and products.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically received on-the-job, supplemented by short courses relating to the specific material or product being considered.

TASKS

- examines hide, skins, leather, fabric, wool, rags, scrap metal, tobacco pipe bowls, fish, fibres, ceramics, produce and other goods;
- assesses product quality visually and by touch, and grades according to weight, thickness, colour and other quality criteria;
- ascertains material(s) required from order card, recipe, or specification and weighs and measures prescribed quantities accordingly;
- uses balances, springs, weighing platforms, automatic scales and weighbridges to check the weight of goods, products and loaded vehicles;
- records and calculates gross and net weight, checks delivery notes and prepares documents and labels for identification purposes;
- operates machines to measure lengths of rolls of material and irregularly shaped materials such as leather or sheepskin.

RELATED JOB TITLES

Egg grader

Fruit sorter

Selector (*ceramics mfr*)

Weighbridge clerk

Weigher

8135 TYRE, EXHAUST AND WINDSCREEN FITTERS

Tyre, exhaust and windscreen fitters fit, repair and adjust tyres, exhausts and windscreens on cars, buses, motorcycles and other motor vehicles.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job, or through training programmes within larger companies. NVQs/SVQs in Vehicle Maintenance (Service Replacement) are available at Levels 1 and 2.

TASKS

- carries out inspection and assesses the nature and extent of repair necessary;
- removes wheel, exhaust or windscreen using semi-automatic machinery or hand and power tools;
- separates tyre from wheel and fits replacement tyre using automatic machine or by using a wheel stand and hand tools;
- inflates tyre to correct pressure, refits wheel to axle and balances wheel using balancing machine;
- replaces faulty parts of exhaust and refits exhaust or windscreen to vehicle.

RELATED JOB TITLES

Exhaust fitter (vehicles)
Tyre and exhaust fitter
Tyre fitter
Windscreen fitter

8137 SEWING MACHINISTS

Workers in this unit group rectify faults in manufactured textile goods, repair worn garments and sew and embroider garments by hand or machine.

7

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

8

There are no formal academic entry requirements. Training is received off- and on-the-job. NVQs/SVQs in Manufacturing Sewn Products are available at Levels 1 and 2.

9

TASKS

- examines natural and synthetic fabrics of all types to identify imperfections and determine best method of repair;
- operates standard and specialised machines to sew and repair garments and other textile, fabric, fur and skin products;
- performs hand sewing tasks in the making and finishing of fur, sheepskin, leather, upholstery, mats, carpets, umbrellas and other textile products;
- embroiders decorative designs on, or secures trimmings to, textile fabric with hand or machine stitching;
- cleans and oils machine and reports or remedies any mechanical faults.

RELATED JOB TITLES

Burler

Clothing machinist

Lockstitch machinist

Overlocker

Seamstress

Sewing machinist (*clothing mfr*)

8138 ROUTINE LABORATORY TESTERS

Routine laboratory testers perform routine checks, at various stages of production, to verify the physical, chemical and other quality related characteristics of materials and products.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, although some employers may require GCSEs/S grades. Training is available both off- and on-the-job. NVQs/SVQs in Laboratory and Associated Technical Activities are available at Levels 2, 3 and 4.

TASKS

- examines test card to determine type of test required;

- sets up appropriate testing equipment and prepares item for testing;
- carries out prescribed tests to check acidity, alkalinity, absorption, colour, density, elasticity, solubility, or other physical and chemical characteristics;
- records test data and cleans, maintains and checks equipment for reliability.

RELATED JOB TITLES

Laboratory assistant

Tester (*paint mfr*)

8139 ASSEMBLERS AND ROUTINE OPERATIVES NEC

Workers in this unit group perform assembly and routine operative tasks not elsewhere classified in MINOR GROUP 813: Assemblers and Routine Operatives.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, though some employers may require GCSEs/S grades. Some employers may set dexterity and aptitude tests for entrants. Normal colour vision may be required for some posts. NVQs/SVQs at Levels 1, 2 and 3 are available in a variety of areas.

TASKS

- follows instructions and drawings and positions components on work bench or in assembly machine;
- assembles prepared components in sequence by soldering, bolting, fastening, spot-welding, screwing, nailing, stapling, dipping and fastening using power and hand tools or assembly machine;
- rejects faulty assembly components, inspects finished article for faults, monitors assembly machine operation and reports any faults;
- applies enamel to jewellery and coats, lacquers, dips and touches up articles (other than ceramic);

- sets up and operates machines to apply colour to wallpaper and to coat articles (other than ceramic) with paint, cellulose or other protective/decorative material;
- performs miscellaneous painting and coating tasks not elsewhere classified including, staining articles, applying transfers, operating french polishing machines, removing surplus enamel from components and marking design outlines on articles.

**MINOR GROUP 8
CONSTRUCTION OPERATIVES**

Construction operatives erect and dismantle structures, erect and dismantle tall structures, construct and maintain public works, construct and maintain underground piping systems, and perform a variety of other construction maintenance, repair and demolition of buildings.

Occupations in this minor group are classified as follows:

- 1
- 8141 SCAFFOLDERS, STAGERS, AND RIGGERS
- 8142 ROAD CONSTRUCTION OPERATIVES
- 8143 RAIL CONSTRUCTION AND MAINTENANCE OPERATIVES
- 8149 CONSTRUCTION OPERATIVES NOT ELSEWHERE CLASSIFIED

2

8141 SCAFFOLDERS, STAGERS, AND RIGGERS

3

Workers in this unit group erect and dismantle scaffolding and working platforms, set up lifting equipment and ships' rigging, maintain and repair steeples, industrial chimneys and other tall structures and install, maintain and repair ropes, wires and cables.

4

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

5

There are no formal academic entry requirements. Training is initially received on-the-job. Skilled workers must obtain Construction Industry Training Board (CITB) recognised scaffolders record scheme cards through the completion of approved courses and further work experience. NVQs/SVQs in Scaffolding are available at Levels 2 and 3.

6

TASKS

- 7
- 8
- examines drawings and specifications to determine job requirements;
 - examines scaffold tubing and couplings for defects and selects, fits and bolts scaffold tubes until scaffolding reaches required height;
 - lays and secures wooden planking to form working platforms and fixes guard rails, ladders, cradles and awnings as required;

GROUP 814

CONSTRUCTION OPERATIVES

erect and maintain scaffolding and working platforms, maintain highways and railway tracks, lay and repair a variety of tasks in relation to the construction, maintenance and repair of buildings.

divided into the following unit groups:

RIGGING

OPERATIVES

MAINTENANCE OPERATIVES

UNIT GROUPS NEC

- erects jib, derrick and similar hoisting equipment and installs ropes, pulleys and other lifting tackle;
- forms rope slings, ladders, netting and other rigging and measures, cuts and repairs wire or fibre rope.

RELATED JOB TITLES

Rigger

Scaffolder

Stager (*shipbuilding*)

8142 ROAD CONSTRUCTION OPERATIVES

Workers in this unit group construct, repair and maintain roads and lay paving slabs and kerbstones to form pavements and street gutters.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No academic qualifications are required. Training is typically provided on-the-job. All sites are required to have a 'trained operative' registered with the Street Workers Qualification Register. Trained operatives are required to attend accredited assessment centres. NVQs/SVQs in Highway Maintenance and Road Building are available at Levels 1 and 2.

TASKS

- inspects road surfaces for hazards or signs of deterioration, clears mud, weeds and debris from road and spreads grit or salt as required;
- cuts away broken road surface with pick or pneumatic drill;
- heats bitumen in bucket, applies it to newly laid asphalt and beats or draws tamper head on asphalt to close joints;
- spreads bitumen, tar or asphalt and compacts surface using roller;
- spreads aggregate over road surfaces using shovel and lays markings on road surface;
- removes damaged paving slabs and kerb stones, lays bedding of sand, concrete or mortar on prepared foundation, lays new slabs or stones and fills joints with mortar.

8143 RAIL CONSTRUCTION AND MAINTENANCE OPERATIVES

Workers in this unit group lay, re-lay, repair and examine railway track and maintain surrounding areas.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Off- and on-the-job training is provided. NVQs/SVQs in Rail Transport Engineering are available at Levels 2 and 3.

TASKS

- patrols length of track and visually inspects rails, bolts, fishplates and chairs for distortion or fracture;

- checks tightness of bolts and wedges, replaces damaged rail chairs and repacks ballast under sleepers if necessary;
- lubricates points, examines fences, drains, culverts and embankments and carries out any necessary maintenance;
- spreads ballast and lays sleepers or metal plates at specified intervals;
- positions lengths of rail, sets of points and crossovers and secures rail with bolts, wooden wedges or clips;
- fastens together sections of rail by bolting fishplates to rails.

8149 CONSTRUCTION OPERATIVES NEC

Workers in this unit group operate insulating equipment, fix plasterboard or dry linings to ceilings and walls, help construct, maintain, repair and demolish buildings and clean and resurface eroded stonework, and lay, join and examine pipe sections for drainage, gas, water or similar piping systems.

4

5

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job. NVQs/SVQs in General Construction Operations are available at Levels 1, 2 and 3.

6

TASKS

7

- fills machine with insulating mixture, positions hose, drills access hole and fills cavities or coats surfaces to prevent loss or absorption of heat and provide fire protection;
- selects appropriate plasterboard or dry lining panels, cuts them to required size and fixes them to ceilings and walls;

8

9

- cuts, shapes and fits wood, lays bricks and tiles, cleans exterior surfaces of buildings and resurfaces eroded stone or brickwork, and performs other tasks in the construction, alteration, repair and demolition of buildings;
- selects appropriate asbestos, clay, concrete, plastic or metal pipe sections and lowers them into prepared trenches using hoisting equipment;
- joints pipe by sealing with rubber, cement, lead, etc., connects piping to manholes and attaches pipe junctions as required;
- tests joints with electronic test equipment or by filling piping with water, smoke or compressed air.

Ceiling fixer
Pipe layer
Thermal insulation engineer

SUB-MAJOR TRANSPORT AND MOBILE OPERATIONS

Transport and mobile machine drivers and operatives collect, transport, load, unload, move, store goods and people, guide and monitor the movement of goods and people, operate equipment on board ships, assist in the boarding and disembarking of ships, airports, operate lifting, earth moving and earth handling machinery and other mobile machinery.

MINOR GROUP TRANSPORT DRIVERS

Transport drivers and operatives collect, transport, load, unload, move, store goods and people, guide and monitor the movement of goods and people, operate equipment on board ships, assist in the boarding and disembarking of ships, airports, operate lifting, earth moving and earth handling machinery and other mobile machinery. Vehicles, other lorries and vans, drive road passenger and goods trains, guide the movement of goods and people, operate marshalling yards, control the movement of road vehicles, operate ships, of railways, perform deck duties and operate equipment on board ships, assist in the boarding, fuelling and disembarking of ships, perform other transport related tasks not elsewhere classified.

Occupations in this minor group are classified as follows:

- 8211 HEAVY GOODS VEHICLE DRIVERS**
- 8212 VAN DRIVERS**
- 8213 BUS AND COACH DRIVERS**
- 8214 TAXI, CAB DRIVERS AND CARRIAGE DRIVERS**
- 8215 DRIVING INSTRUCTORS**
- 8216 RAIL TRANSPORT OPERATIVES**
- 8217 SEAFARERS (MERCHANT NAVY CREW)**
- 8218 AIR TRANSPORT OPERATIVES**
- 8219 TRANSPORT OPERATIVES NOT ELSEWHERE CLASSIFIED**

8211 HEAVY GOODS VEHICLE DRIVERS

Large Goods Vehicle (LGV) drivers (formerly HGV drivers), collect, transport and deliver goods in rigid vehicles over 7.5 tonnes, articulated lorries and lorries pulling trailers.

<p>GROUP 82</p> <p>MACHINE DRIVERS AND</p> <p>OPERATIVES</p> <p>operatives drive motor vehicles to transport movement of rail traffic, operate mechanical loading, fuelling and movement of aircraft at airports, and operation of surfacing equipment, agricultural equipment</p>	Major Group 8

TASKS

- checks tyres, brakes, lights, oil, water and fuel levels and general condition of the vehicle;
- drives vehicle from depot to loading/unloading point;
- assists with loading/unloading and ensures that load is evenly distributed and safely secured;
- drives vehicle to destination in accordance with schedule;
- maintains records of journey times, mileage and hours worked;
- undertakes minor repairs and notifies supervisor of any mechanical faults.

RELATED JOB TITLES

Haulage contractor
HGV driver
Lorry driver
Tanker driver

8212 VAN DRIVERS

Van drivers collect, transport and deliver goods in vehicles up to 7.5 tonnes in weight.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Entrants must possess a clean car driving licence. In order to drive vehicles between 3.5 and 7.5 tonnes, entrants must pass an additional test for a category C1 licence. NVQs/SVQs in Transporting Goods by Road are available at Level 2.

TASKS

- checks tyres, brakes, lights, oil, water and fuel levels and general condition of the vehicle;
- drives vehicle from depot to loading/unloading point;
- assists with loading/unloading and obtains receipts from customers for goods collected/delivered;

- drives vehicle to destination in accordance with schedule;
- maintains records of journey times, mileage and hours worked;
- undertakes minor repairs and notifies supervisor of any mechanical faults.

RELATED JOB TITLES

Delivery driver

Van driver

8213 BUS AND COACH DRIVERS

Bus and coach drivers drive road passenger-carrying vehicles such as buses, coaches, trams and mini-buses.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, though candidates must be in possession of a full car driving licence. All bus and coach drivers must pass the Passenger Carrying Vehicle (PCV) test. This incorporates a theoretical examination and assessed driving. Entrants to the PCV test must be at least 18 years old. NVQs/SVQs in Transporting Passengers by Road are available at Levels 2 and 3.

TASKS

- checks tyres, brakes, lights, oil, water and fuel levels and general condition of the vehicle before start of journey;
- drives single- and double-decked vehicle over pre-determined route, complying with traffic regulations and keeping to time schedule;
- stops and opens and closes doors at pre-arranged places to allow passengers to board and alight, observing regulations concerning the number of passengers carried;
- may collect fares from passengers and issue tickets or ensure that they use a ticket machine;
- may plan routes in conjunction with private hirer and assist with loading and unloading of luggage;

- balances cash taken with tickets sold and may be responsible for cleanliness of vehicle.

RELATED JOB TITLES

Bus driver
Coach driver
PSV driver

8214 TAXI, CAB DRIVERS AND CHAUFFEURS

Taxi, cab drivers and chauffeurs drive motor cars for private individuals, government departments and industrial organisations, drive taxis for public hire, drive new cars to delivery points and drive motorcycles and other motor vehicles.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No academic qualifications are required but most entrants require a clean, current driving licence and a medical examination. Local authorities typically set their own tests of local knowledge and additional driving tests before awarding licences.

TASKS

- checks tyres, brakes, lights, oil, water and fuel levels and general condition of vehicle before start of journey;
- drives passenger-carrying motor cars, taxis and other motor cars and motorcycles, complying with road and traffic regulations;
- collects passengers when hailed or in response to telephone/radio message and helps them to secure their luggage;
- conveys passenger to destination and helps unload luggage;
- cleans, services and maintains vehicle or motorcycle.

RELATED JOB TITLES

Cab driver
Chauffeur
Private hire driver
Taxi driver

8215 DRIVING INSTRUCTORS

Driving instructors co-ordinate and undertake the instruction of people learning to drive cars, motorcycles, buses and haulage vehicles.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic requirements. Candidates must have held a current driving licence for four out of the last six years, have no motoring or criminal convictions and be over 21 years old. To gain registration as an Approved Driving Instructor, entrants must pass a three-part examination. Instructors for Large Goods Vehicles (LGVs) and Passenger Carrying Vehicles (PCVs) are trained internally or at specialist training establishments. NVQs/SVQs in Driving Instruction at Level 3 are available for instructors in all licence categories.

TASKS

- checks instruction and learning standards and discusses teaching plans with other instructors;
- plans lessons in accordance with the needs and abilities of individual pupils;
- explains driving techniques and assists pupil with difficulties;
- familiarises pupil with the Highway Code and different road and traffic conditions;
- advises pupil when to apply for theoretical and practical driving tests and familiarises them with test procedures and standards.

8216 RAIL TRANSPORT OPERATIVES

Rail transport operatives assist drivers in the operation of passenger and goods trains, drive locomotive engines in coal mines, guide wagons and coaches in marshalling yards and sidings to make up trains, operate signals and points to control the movement of rail traffic, and monitor the operation of surface and underground railways.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Candidates may be required to have good hearing, eyesight, and normal colour vision and pass a medical examination for entry to some posts. Training is initially undertaken in training centres, followed by practical experience on-the-job. NVQs/SVQs in Rail Transport Operations are available at Level 2.

TASKS

- provides crews for breakdown trains, allocates relief and replacement crews as necessary, keeps crews informed of any line repairs or restrictions, and checks train running times for punctuality;
- examines schedules and decides priority of movement of trains, monitors movement of trains and issues instructions to drivers, signal operatives and level crossing keepers;
- operates signals and opens and closes barriers at level crossings as required;
- examines shunting instructions, uncouples wagons and coaches, guides movement of carriages using manual points and wagon breaks, links-up carriages, ensures security of couplings and reconnects brake and heating systems;
- assists drivers in the operation of diesel, diesel-electric, electric and steam locomotives;
- checks loading of tubs and carriages, and informs driver of load distribution and any special features of route.

RELATED JOB TITLES

Level crossing keeper

Railwayman

Shunter

Signalman (*railways*)

8217 SEAFARERS (MERCHANT NAVY); BARGE, LIGHTER AND BOAT OPERATIVES

Workers in this unit group supervise and carry out a variety of deck duties and operate and maintain engines, boilers and mechanical equipment on board ships.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, although some employers may expect entrants to possess GCSEs/S grades. Candidates are expected to pass a medical examination and have good eyesight. Training takes place at nautical college and lasts between 11-13 weeks.

TASKS

- ensures that necessary fuel supplies are on board and inspects engine, boilers and other mechanisms for correct functioning;
- removes and repairs or replaces damaged or worn parts of plant and machinery and ensures that engine and plant machinery are well lubricated;
- stows cargo, assists passengers to embark and disembark, watches for hazards and moors or casts off mooring ropes as required;
- steers ship, under the supervision of a duty officer, checks navigational aids and keeps bridge, wheel and chartroom clean and tidy;
- performs other deck duties, including servicing and maintaining deck gear and rigging, splicing wire and fibre ropes, greasing winches and derricks, opening up and battening down hatches, securing gangways and ladders and lowering and raising lifeboats.

RELATED JOB TITLES

Boatman/woman
Bo'sun

Seaman/woman (*shipping*)

8218 AIR TRANSPORT OPERATIVES

Air transport operatives refuel, load and unload aircraft, direct the movement of aircraft at airports, and position gangways or staircases to allow passengers to board and disembark aircraft.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements, though employers may require entrants to possess GCSEs/S grades for some posts. Training is provided off- and on-the-job. NVQs/SVQs in Providing Airside Ramp Operations are available at Level 2.

TASKS

- refuels aircraft from mobile tankers;
- directs the ground movement of aircraft at airports;
- loads and unloads conveyor belts to transport luggage between terminal buildings and aircraft, monitors conveyor belts and clears any blockages;
- loads aircraft with luggage, in-flight meals, refreshments and other items;
- operates retractable gangway or positions mobile staircases to enable passengers and crew to board and disembark aircraft.

RELATED JOB TITLES

Aircraft handler
Airport hand
Baggage handler
Ramp agent

8219 TRANSPORT OPERATIVES
NEC

Workers in this unit group monitor the activities of bus drivers, conductors and other road transport depot drivers, undertake various tasks related to water transportation, and perform other transportation tasks not elsewhere classified.

TYPICAL ENTRY ROUTES AND
ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is provided both off- and on-the-job. NVQs/SVQs in Organising Road Transport Operations and Marine Operations are available at Level 2.

TASKS

- checks that vehicles run as scheduled, monitors number of passengers travelling particular routes and makes recommendations for improvement of services;
- organises relief and replacement crews as necessary, ensures compliance with regulations regarding the carrying of passenger and luggage, and submits reports of any irregularities;
- checks that goods have been correctly loaded into vehicle, monitors and records information from tachographs, and arranges for servicing, refuelling, cleaning and repair of depot vehicles;
- operates lighthouses and locks, opens and closes moving bridge across inland waterways and docks, maintains navigational lights in harbours, assists in mooring craft, and measures depth of water in canals, rivers, etc. to determine possible dumping or dredging sites;
- guides horses or ponies and drives horse drawn vehicles to transport goods and passengers.

**MINOR GROUP 8
MOBILE MACHINE DRIVERS**

Workers in this minor group drive and operate cranes, power driven hoisting machinery, fork-lift trucks, and operate other mobile machinery.

Occupations in this minor group are classified as follows:

- 8221 CRANE DRIVERS**
- 8222 FORK-LIFT TRUCK DRIVERS**
- 8223 AGRICULTURAL MACHINERY DRIVERS**
- 8229 MOBILE MACHINE DRIVERS**

8221 CRANE DRIVERS

Crane drivers supervise and undertake the operation of cranes, jib cranes, power driven hoisting machinery and power driven stationary engine to raise and lower mine and other cages, lift and to move equipment, materials, machinery and containers.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no formal academic entry requirements. Training is typically provided on-the-job, supplemented by short courses. Operators are required to hold a Certificates of Training Achievement (CTA) card administered by the Construction Industry Training Board, demonstrating basic skills and safety awareness.

TASKS

- gives signals for movement of cage carrying workers/equipment;
- starts crane or engine motor and checks that cables run freely and that brakes and drum(s) are working;
- manipulates levers, switches and pedals to rotate jibs into position and turns winding drum to raise or lower hook, bucket or other holding equipment;
- lifts load or cage, or hauls object into required position and lowers or positions for ground workers to detach, unload or load;

GROUP 822

DRIVERS AND OPERATIVES

operate earth moving and surfacing equipment, lift trucks, tractor driven and other agricultural machines not elsewhere classified.

8223 AGRICULTURAL MACHINERY DRIVERS

Workers in this unit group operate and drive tractor-drawn or other machinery to clear and cultivate land and to sow and harvest plants and crops.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No academic qualifications are required. Candidates will require the relevant driving licence to operate vehicles on public roads. A variety of NVQs/SVQs in Agriculture are available and incorporate the operation of agricultural machinery.

TASKS

- attaches plough, cultivator, distributor, mower, baler or other implement to tractor;
- adjusts depth, speed and height of attached implement according to requirements;
- drives and operates machinery to plough, fertilise, plant, cultivate or harvest crops;
- services and maintains equipment and carries out any minor repairs.

RELATED JOB TITLES

Agricultural machinist
Tractor driver (*agriculture*)

8229 MOBILE MACHINE DRIVERS AND OPERATIVES NEC

Workers in this unit group supervise and undertake the operation of machines to transport, excavate, grade, level, and compact sand, earth, gravel and similar materials, drive piles into the ground and lay surfaces of asphalt, concrete and chippings, and operate other mobile machines not elsewhere classified in MINOR GROUP 822: Mobile Machine Drivers and Operatives.

1

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

No academic qualifications are required. On-the-job training is provided. The appropriate current driving licence will be required for driving on public highways.

2

TASKS

3

- fixes any necessary extensions onto machine and loads machine with asphalt, concrete, bitumen, tar, stone chippings or any other required materials;
- manipulates levers, pedals and switches to manoeuvre vehicle, regulate angle and height of blades, buckets and hammers and starts conveyor, suction or water spraying system;
- watches operation and removes any likely obstacle or obstructions;
- directs refilling of machine hopper and repeats operations as necessary;
- cleans, oils and greases machine and carries out minor repairs.

RELATED OCCUPATIONS**

Workers in this sub-major group perform agricultural work, undertake general labouring duties and assist in the performance of a variety of duties in foundry, engineering trades, and assist in the storage and transportation of goods.

**1 MINOR GROUP 9
ELEMENTARY AGRICULTURE**

Workers in this minor group cultivate and harvest crops, breed fish and other aquatic life and perform related tasks.

2

Occupations in this minor group are classified as follows:

- 9111 FARM WORKERS**
- 9112 FORESTRY WORKERS**
- 9119 FISHING AND AGRICULTURAL WORKERS**

4 9111 FARM WORKERS

Farm workers perform a variety of tasks, by hand and machine, to produce and harvest crops and to breed and rear cattle, sheep, pigs and poultry.

**5 TYPICAL ENTRY ROUTES AND
ASSOCIATED QUALIFICATIONS**

There are no minimum academic entry requirements. Training is typically received on-the-job, supplemented by vocational training at an agricultural college. A variety of NVQs/SVQs in Agriculture are available at Levels 1 and 2.

7 TASKS

- operates farm machinery to prepare soil, fertilise and treat crops;
- cultivates growing crops by hoeing, spraying and thinning as necessary;
- weighs and measures foodstuffs, feeds animals and checks them for any signs of disease;

GROUP 91 PLANT AND STORAGE OCCUPATIONS

agricultural, fishing and forestry related tasks, plant building and construction trades workers, engineering and other process and plant related production of goods.

GROUP 911 CULTURAL OCCUPATIONS

invest crops, breed and rear animals, catch and process fish and forestry and related tasks.

divided into the following unit groups:

AGRICULTURE RELATED OCCUPATIONS NEC

- cleans barns, sheds, pens, yards, incubators and breeding units and sterilises milking and other equipment as necessary;
- treats minor ailments and assists veterinary surgeon as required;
- tends flock of sheep and is responsible for their welfare;
- implements breeding policy, mates animals and tends them during birth of young.

RELATED JOB TITLES

Agricultural worker
Farm labourer
Farm worker
Herdsman
Shepherd

9112 FORESTRY WORKERS

Forestry workers perform a variety of tasks related to the planting, cultivation and protection of trees.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no minimum academic entry requirements. Training is typically received on-the-job, supplemented by short courses covering specialised skills. NVQs/SVQs in Forestry are available at Levels 1 and 2.

TASKS

- prepares ground for planting by clearing vegetation and other debris;
- drains and ploughs land and erects and maintains fences as necessary;
- collects seeds, plants and prunes trees and selects and marks trees for felling;
- fells trees using axe or power saw and saws wood into required lengths;
- removes tops of standing trees and lops branches as necessary;
- assists in the control of harmful diseases, pests or forms of wildlife;
- maintains watch for fires and operates firefighting equipment.

RELATED JOB TITLES

Forestry contractor
Forestry worker
Lumberjack
Timber feller

9119 FISHING AND AGRICULTURE RELATED OCCUPATIONS NEC

Workers in this unit group perform a variety of tasks in relation to the breeding and rearing of animals and fish, catch fish at sea and from inland waterways, assist in the picking and lifting of crops, plant and maintain hedges, oversee the incubation and hatching of eggs and perform other fishing and agriculture related tasks not elsewhere classified.

TYPICAL ENTRY ROUTES AND ASSOCIATED QUALIFICATIONS

There are no minimum academic entry requirements. Training is typically received on-the-job, supplemented by vocational training at an agricultural college. A variety of NVQs/SVQs in Agriculture, Fish Husbandry and Fishing Vessel Operations are available at Levels 1 and 2. Fishermen/women are required to undertake a three day safety course.

TASKS

- assists with the shooting, hauling and repairing of nets, prepares, lays and empties baited pots at intervals, operates winches and lifting gear, and guts, sorts and stows fish;
- harvests oysters, mussels, clams and seaweed off natural or artificial beds, nets river fish and maintains them in spawning pens, assists with feeding and water treatment, and empties and cleans outdoor tanks;
- cleans animals' quarters and renews bedding as necessary;
- extracts semen for storage, selects appropriate semen from store, injects recipient animal and issues certificate giving pedigree and date of insemination;
- incubates eggs in hatchery and supplies chicks for meat and egg production and game birds for reserves;
- plants cuttings or shrubs, maintains hedges by clipping, pruning and re-planting, and picks fruit, vegetables, hops and flowers;
- performs other farming and related tasks not elsewhere classified including sorting and marking livestock, catching rabbits, cutting peat, shearing sheep and sexing chickens.
