## IPF JOB EXPOSURES STUDY (IPF JES)

Cons Speciality Hospital Town Postcode

December 16, 2016

**RE: IPF JES** 

Dear Doctor,

We have randomly selected one of your patients (NAME, number, dob) as a potential case in IPF JES, a multicentre case-control study to investigate job exposures in IPF. The study involves a short interview to measure historic job exposures and a blood test to investigate susceptibility genetics. I enclose a one-page summary of the study together with the participant information sheet and would be happy to answer any questions you might have. Would you be happy to send a cover letter (attached) and information sheet to the patient? We would then hope to enrol them in the study at their next outpatient appointment.

Yours sincerely

Dr Carl Reynolds, Chief Investigator, on behalf of the IPF JES team
